SENSATIONAL PROTEST AGAINST THE ROOSEVELTERS' SCHEME OF LARCENY.

THE most sensational political news since the bolting of Roosevelt from the Republican National Convention came last night in the impassioned repudiation by two "Progressive" leaders of the Rooseveltian scheme for securing electors for Roosevelt by the process of grand larceny, in several States.

Gov. Johnson has given out as the "Progressive" programme in California this plan to nominate for Presidential Electors on the Republican ticket men who will, if elected, vote for Roosevelt instead of the Republican nominee, Mr. Taft, in violation of their obligation. This unblushing proposal has aroused United States Senator John D. Works, one of the most advanced "Progressives," and Ormsby McHarg, most aggressive lieutenant of Roosevelt, who has swallowed everything hitherto, to denounce the programme (as honest men must) as "treachery," "stealing" and "infamy."

SALAZAR TELLS OROZCO HE MUST GIVE FORTUNE.

Rebel General Delivers Ultimatum to His Commanding Officer.

Demands Pay for Troops and Gives Leader of Mexican Revolution Three Days in Which to Produce Half Million Dollars Deposited in Bank Since He Began Uprising Against Madero.

[BY DIRECT WIRE TO THE TIMES.]

VERACRUZ (Max.) July 15.—[Exclusive Dispatch.] Gen. Tomas Salazar, the rebel leader, delivered an ultimatum to Gen. Francisco Orozco, 27, the rebel commander-in-chief, demanding that he turn over his private fortune to pay the rebel soldiers, or resign as leader of the revolutionary party.

Salazar's return here today from Vera Cruz and his ultimatum to Gen. Orozco provided a dramatic surprise for the big and little fry of the Vera Cruz press, and has created great excitement.

The rebel leader has been given three days in which to reply to Salazar's demands, according to well-known rebel circles. Gen. Salazar is second in command of the rebel army. It is known he and Gen. Orozco have not been in sympathy with each other's tactics, but Orozco has not dared to dismiss either because of their large following.

Neither of these officers is known to have made any money out of the revolution against President Madero, while it is known Orozco has piled up a bank account of more than \$500,000 since he took up arms against Madero. Of that sum only \$25,000 is accounted for. That was the gift of Madero for Orozco's services in the revolution against the Diaz government.

Preparations are now being made to move the rebel capital to Casas Grandes. Felix Gutierrez, Governor of Chihuahua, has already sent state documents to Casas Grandes, and will himself depart in a day or two.

The rebels will evacuate Juarez before the Federal attack. This move is being made, it is said, to prevent complications with the United States or run the risk of bullets flying into El Paso.

MORMONS EXPECT A CLASH WITH TROOPS.

[BY A. P. NIGHT WIRE TO THE TIMES.]

COLONIA MORELOS (Max.) July 15.—[Continued on Sixth Page.]

Rebel General Delivers an Ultimatum to Orozco.

Gen. Inez Salazar, Second in command of the revolutionary forces in Mexico, who last night demanded that Orozco turn over his private fortune of \$500,000 to pay the rebel soldiers and gave him three days to make answer. Salazar and Gen. Orozco are reported greatly dissatisfied with Orozco's conduct of the revolution.

"SURRENDER YOUR LOOT," CRIES SENATOR WORKS.

Warns Roosevelt They Cannot Hold on to the Republican Machinery.

"Absolve Yourself of Theft Before You Cry Thief," Is the Formula of a Most Remarkable Statement Issued from Within the Ranks of the Johnson-Lisner Third-Term Clique.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON BUREAU OF THE TIMES, July 15.—[Exclusive Dispatch.] In accordance with a request for his opinion on the political situation, Senator John D. Works has given out a carefully prepared statement in which he deprecates any stealing of party organizations by the insurgents. While he does not believe that Mr. Taft was honestly nominated, he has no patience with the third-party idea.

Senator Works says that the Roosevelt people are "wild with passion," and demand a new party, but he says they cannot honorably use the control of the Republican party machinery where they have it, as in California, but must give it up to the men they wrested it from, for otherwise "no man of right political principles can consistently support their new party."

TEXT OF THE STATEMENT.

Senator Works's statement, as prepared and given out by the Senator himself, reads as follows:

"This is a critical time in the affairs of the Republican party and in the history of the country, so much of which has been written by that great national party.

"The party is divided into two apparently irreconcilable factions. The warfare between them, and between their candidates, culminated in the practical dismemberment of the party, for the time being at least—it may be forever—at Chicago.

"The pre-convention campaign of Taft and Roosevelt was a bitter personal fight that brought disgrace upon the whole country. The convention at Chicago was the natural culmination of such a campaign. It was full of bitterness, animosity and malice.

"The Taft forces, as represented by the National Committee, intensified this feeling of bitterness by its arbitrary, unjust and illegal unseating of Roosevelt delegates and the seating of those favorable to Taft.

"The brutal attacks made on the Taft members of the committee who perpetrated this great wrong, by Roosevelt men, added fuel to the flames. When the convention met the opposing factions were ready to fly at each other's throats.

SPECTACULAR ROOSEVELT.

"The feeling was intensified by Roosevelt's spectacular appearance on the scene, and his scathing denunciation of the Taft forces for stockpiling the convention through a subversive National Committee. The feeling was so bitter and intense that no compromise on a third man was possible.

"Each side was afraid to let go of any delegates for fear they would go to the other, and not to the new man. So it became a fight to a finish, just as malicious and just as disgraceful as the campaign that preceded it.

"The Roosevelt forces practically bolted. They refused to vote on the nomination of candidates, and went out, and by resolution nominated Roosevelt men. Taft received the vote of those who remained, giving him a meager majority of 21, including the delegates unlawfully seated and who had no right to be there.

"Neither of these men was actually and legally nominated. Without the votes of the delegates illegally seated by the National Committee Taft was defeated. The delegates who voted for the resolution nominating Roosevelt were wholly without authority to act in any such way. They were duly elected and accredited delegates to the National Republican Convention. They had authority to act in that convention, as delegates, and not elsewhere or otherwise. They refused to act in that convention as they were authorized to do. There their authority ceased.

"So the Republican party has no candidate for President. Its members are free to vote for whom they please and may do so without violating any party obligation or fealty. They may vote for the Democratic nominee or an independent candidate without leaving or breaking faith with their own party, because it has no candidate.

ROOSEVELTERS WILD WITH PASSION.

"But the Roosevelt followers are so indignant, and wild with passion that they are not content with this independent course. Nothing but a brand new party will satisfy their wrath.

"I wonder if they understand what a new party will mean in some of the States. In several of the States, my own included, the progressive element of the party has absolute and complete control of the Republican party with all its political machinery. It is in those States just as much a progressive party as any new party that can be organized. The only trouble is that it is still the Republican party and the advocates of a new party seem to have come to hate the name.

"If, in these progressive States, a new party is formed it must of necessity be made up in whole or in part of the men now composing the Republican party in those States.

"This being so, they cannot belong to both parties and they must, if they are honorable, give up the machinery of the Republican party,

"THE TIMES" CAR DIPS HER WHEELS INTO ATLANTIC.

Famous Ocean-to-Ocean Organizing Automobile Completes Trip.

Thousands of People from All Parts of World Witness Interesting Ceremony at Coney Island—Five Hundred Motors Escort Road-Scarred but Flag-Flying Pathfinder When Crew Reaches New York.

BY BERT C. SMITH.
[BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

NEW YORK BUREAU OF THE TIMES, July 15.—[Special Dispatch.] Thousands of people from almost every corner of the globe saw the wheels of The Times Ocean-to-Ocean organizing car this afternoon.

The largest crowd that has gathered at Coney Island this year took part in the most novel welcome ever accorded a transcontinental touring party.

Dressed with two immense American flags and with pennants from each of the States crossed waving from its sides, the Times special was driven into the breakers and the spray was dashed over the sun-browned crew of the car that has covered more than 3000 miles of the proposed route of the national highway from Los Angeles to New York.

More than 500 automobiles formed the largest escort ever given to one motor car today when The Times Ocean-to-Ocean organizing crew reached New York. Covered with the road-scars of fifteen States, the battered machine was driven across the grounds of Brighton Beach this afternoon while thousands cheered to the echo.

City Magistrate L. H. Reynolds of Brooklyn had charge of the wheel dipping ceremony and the old automobile car was sent through a line of automobiles and then through lines of excited onlookers to the edge of the sands. Before the car could be driven into the ocean, mounted police were obliged to force the spectators back from the edge of the water.

Then, with the motor chugging as well as when it started, the machine rolled straight into the ocean until the waves dashed around the body and Col. Del M. Potter, national organizer, who has ridden every foot of the way in the car, told the Coney Island throng the story of the national highway from the tonneau which has figured in an organizing tour that has made possible the greatest campaign ever started in favor of a transcontinental turnpike.

TRIBUTE TO CAR.
An odd appearing machine, with the paint scratched from the body and with signatures scribbled all over the tonneau, attracted more attention in New York than any other machine since the motor cars raced around the world. Had The Times car traveled four times the distance it could not have been accorded more homage.

The traffic squad of New York was more than agreeable. Though the car was shabby it could not have been treated better. It was given the same honors as the latest limousine. As the car was driven along, society folks from landaulets and carriages inquired of the men concerning the trip.

Several times people whose homes are in Los Angeles rushed up to the car and gave their names, saying they were glad to be able to welcome The Times special. The spirit of loyalty was everywhere and today proved one of the most memorable in a tour that has been marked by special receptions and honors of almost every description.

PROCESSION OF MACHINES.
All doubt as to the reception to be accorded in New York was swept away when the procession of machines swept down toward the beach. The hearts of each man in The Times car was warmed when the holiday crowd on the beach paused to watch the car chug into the ocean.

A. G. Hatchelder, of the Automobile Club of America, was one of the first to greet the car.

AN IDEAL COMBINATION OF QUALITY AND QUANTITY.
The value of a newspaper's circulation should be determined by the number of copies of the paper that are read and by the character of its readers, instead of the number of copies distributed. Mere circulation without definite value means nothing. To an advertiser one reader who has purchasing power is worth a multiplicity of those who are without means with which to buy advertised articles.

It is seldom that a newspaper can be found that possesses the enviable circulation features enjoyed by The Times. This paper not only exceeds all its local contemporaries in quantity of circulation, but in quality and permanence as well. The Times goes into the great majority of homes, offices and business houses of Los Angeles and Southern California, and it is read by, and has the confidence and moral support of the substantial, industrious, thinking, earning men and women in this field. Unlike other newspapers, this journal does not issue a Sunday paper Saturday night, send incomplete issues to out-of-town points, misbrand its editions or resort to any other subterfuge to make its circulation appear to be larger than it actually is. The Times circulation figures are based on the number of copies that go to bona fide subscribers. The Times circulation is not of the "fly by night" kind, but it is made up of home-loving, home-making, law-abiding, buying men and women, and represents the buying power of the consumers of this rich field. Consequently each copy of The Times is a selling force, and materially aids advertisers in solving the ever-present problem of distribution.

The fact that The Times regularly prints twice as many legitimate "Want Ads" as any other local newspaper indicates its widespread popularity, and its thorough distribution in the homes of Los Angeles.

The genuineness and superior quality and quantity of The Times circulation, and its pre-eminence as an advertising medium, due to the responsiveness of its readers to the appeals of its advertising patrons, lift this journal entirely out of local comparisons and place it in a class by itself.

to welcome the ocean-to-ocean tour. With thousands of other good-road enthusiasts, he led the cohorts in the parade through the city streets and out toward the ocean front.

George W. Wilder of Redlands was one of the biggest boosters who helped make the reception in this city one of the most memorable. He was grand marshal and directed the procession down Sixth avenue and then, after crossing East River, pointed the way to the sands. When the beach was reached it was necessary to receive a special permit to allow the car on the sands.

SPECIAL PRIVILEGES.
The keys of the city were then given to the men on the car and special privileges were granted the ocean-to-ocean highway officials who had given their time and their money to organize the tour. The machine was driven down to the edge of the water but was not stopped until all four wheels were in the water. When the last carling was covered, the tour was officially over, but New York had been added to the list of cities where the good-road workers have been called to arms.

The last day of the tour was exciting. The car had been driven on Saturday to within striking distance of this city. After a rest on Sunday, preparation was made for the final run into New York. At Wilmington, the weather man announced a storm. An early start was made. One hour after the car had left on the last leg of the trip the rain came down in torrents.

It was necessary to seek shelter at the home of Mrs. Laura Ford, whose farm fronts on the highway. For two hours the storm raged. Trees were blown up by the roots and it looked for a time as if the old car would finish its tour in the mud near the roadside. Early in the afternoon the clouds rolled away and the tour was resumed with the machine pressed into a fast run.

ARRIVE ON TIME.
The schedule called for New York City's limits at 5 o'clock. To the dot the car was on time to meet those who were waiting to make the entrance into New York City memorable. The storm had proved one of the many blessings which have been showered on the men in The Times car. Today was one of the most pleasant New York has experienced this year. The heat-sweltered city is cool tonight.

ANOTHER ORGANIZER.
Tonight plans were made to send another organizer back over the route followed by The Times car.

Col. Del M. Potter, national organizer of the Ocean-to-Ocean Highway Association, must return on Wednesday.

Work is to be taken up at once to receive reports from the presidents of each division formed along the route. The national highway campaign is only begun. This ocean-to-ocean tour is to result in a petition with 1,000,000 names being presented to Congress for the national highway across the United States.

MUCH TO BE DONE.
"There is much to be done before we have this great highway," said Col. Potter tonight. "I wish I could devote my entire time to it, but it is impossible. We expect to send an organizer back over the route followed by The Times car and he will organize in every little village and hamlet along the way."

"The Los Angeles Times made it possible for us to start this tour. Gen. Harrison Gray Otis presented this car to the Ocean-to-Ocean Highway Association and we have crossed the continent. I want to thank the editor of The Times for the great service he has rendered and I want to say to the people of New York that we have a grand man in the West who is willing to strip the car of nearly everything movable."

THREE WOMEN DROWNED.
Oaklanders Spending Their Vacation Near the Water, Get Beyond Their Depth and Lose Their Lives.

SANTA CRUZ (Cal.) July 15.—Lillian McDonald, Gladys Hewitt and Mrs. May Cripps, a sister of Miss Hawitt, all of Oakland, were drowned in a swimming hole at Brookdale today. Screams from Mrs. Cripps' two small children, Dorothy and William, who had waded in neck deep to help their mother, brought rescuers too late. Brookdale, where the young women were spending their summer vacation, is twenty miles from here. Miss McDonald and Miss Hawitt, each aged 16 years, went in bathing opposite the Brookdale fish hatchery. They were ignorant of the depth of the water and unable to swim.

When they slid off the rocks into deep water, their danger was perceived by Mrs. Cripps, who was ten years older than her sister. When she was dragged down by the two girls her little son and daughter plunged in, but feared to go beyond their depth.

Men rushed from the hatchery and recovered the bodies, sending for physicians, but efforts at resuscitation proved futile.

WORLD'S RECORD IS BROKEN.
California Naval Militiamen Make Fifty-five Consecutive Hits with Four-Inch Guns.

U. S. S. MARELEHEAD, STRAIT OF FUCA, July 15.—[By Wireless to Seattle.] The California naval militia today broke the world's record at target practice, making fifty-five consecutive hits with the four-inch guns and forty-five consecutive hits with the three-pounders.

William F. McCombs, who was yesterday elected chairman of the Democratic National Committee at its meeting in Chicago. The selection of McCombs was demanded by Gov. Wilson and Urey Woodson was ousted as secretary of the committee.

to spend his money to make this undertaking a success. The Times car.

Col. Del M. Potter, national organizer of the Ocean-to-Ocean Highway Association, must return on Wednesday.

OBITUARY.
Charles White, SPOKANE (Wash.) July 15.—[By A. P. Day Wire.] Charles White, aged 58, long prominent in financial circles here, is dead. He was interred here in a string of vaudeville theaters.

George Browne, TACOMA (Wash.) July 15.—[By A. P. Day Wire.] George Browne, secretary and treasurer of the St. Paul and Tacoma Lumber Company, of which he was one of the founders, and until recently an officer in sixteen other corporations in this State, died here this morning, aged 77. Browne was a member of the first Legislature after the State was admitted to the Union. He was a native of Boston.

RACE WAR AT SEA.
SAN FRANCISCO, July 15.—Two members of the Chinese crew were confined to the ship's hospital and several of the Filipino deckhands had knife wounds to show as the result of a race riot when the Pacific Mail liner Korea arrived today from the Orient. The trouble started the third day of the passage out of Yokohama. Previously had feeling existing was provoked to the fighting point when the Chinese accused the Filipinos of stealing food from the Chinese. At the start, the advantage was with the Chinese, who used their knives. But when the Filipinos obtained control of a steam pipe, the situation was reversed. The Filipinos were playing steam on their foe when the officers of the ship rushed upon both parties and ended the fight.

LORIMER'S PLANS.
WASHINGTON (D. C.) July 15.—"William Lorimer is going back to Chicago and going to work." That announcement was made today in behalf of the man whom the Senate stripped of his seat Saturday as junior Senator from Illinois. Whether he will re-enter politics and seek a vindication at the hands of the electorate, Mr. Lorimer has not decided.

TO NOTIFY THE PRESIDENT.
WASHINGTON, July 15.—[By A. P. Night Wire.] President Taft will be officially notified of his nomination to the White House on August 1. This was decided today by Chairman Hill of the Republican National Committee, and Senator Root, chairman of the Committee of Notification, appointed at Chicago.

SEATTLE MAN A SUICIDE.
SEATTLE (Wash.) July 15.—[By A. P. Night Wire.] David E. Campbell, bell manager of the Seattle branch of the Campbell-Sanford-Henley Grain Company of Portland, today shot himself through the abdomen in his office in a downtown building, inflicting a fatal wound.

ROOSEVELT GOING TO CHICAGO.
OYSTER HAY, July 15.—[By A. P. Night Wire.] Col. Roosevelt indicated today that he would attend the "national progressive" convention in Chicago on August 6, so arranging his campaign trip as to complete his speech-making just before the convention begins.

WILSON'S MAN IS ACCEPTED.
But Nine Others Will Help Direct the Campaign.

Urey Woodson Is Ousted as Democratic Secretary.

Champ Clark Sends a Faint-Hearted Battle Cry.

[BY A. P. NIGHT WIRE TO THE TIMES.] CHICAGO, July 15.—William F. McCombs of New York, Gov. Woodrow Wilson's choice, today was elected chairman of the Democratic National Committee, and empowered to appoint a committee of not less than nine to take charge of the campaign.

McCombs was authorized to select a national treasurer and such other officers as he may see fit, and, after consulting with Gov. Wilson, to locate headquarters. McCombs said he thought the principal headquarters would be in New York.

Joseph P. Davies of Madison, Wis., was elected secretary of the committee to select Urey Woodson of Kentucky, John L. Martin of St. Louis was re-elected sergeant-at-arms.

McCombs's selection and the plan to appoint a campaign committee of nine, the majority of whom are to be members of the National Committee, with McCombs as chairman of the subcommittee, were ordered on resolutions offered by Committee member Robert S. Hudspeth of New Jersey, as representing the wishes of Gov. Wilson.

Norman E. Mack, the retiring chairman, yielded the gavel to McCombs. "I cannot hope to achieve success unless I have the entire support of this committee, which I believe I have," he said. "I am going to do you during the campaign to consult with me freely."

FROM CHAMP CLARK.
Committee member Costello, District of Columbia, read a letter from Speaker Champ Clark, which said: "I hope the committee will formulate plans wisely for the success of Wilson and Marshall and organize for the campaign immediately and thoroughly."

A telegram of thanks was sent to Speaker Clark.

As to raising campaign funds, Mack urged the policy of popular subscription to be procured by appeals to newspapers.

The committee left tonight for Indianapolis to meet Gov. Marshall.

GOVERNOR'S RESOLUTION.
The following resolutions offered by Senator Gore, who sat in the committee on a proxy, were adopted: "Be it resolved by the National Democratic Committee that we congratulate the country and the Democracy on the exceptional prospects of Democratic success in November. We rejoice that all Democrats everywhere are united and enthusiastic in support of the platform and nominees of the party. We earnestly invite all voters without reference to previous political faith or affiliation, who are in sympathy with such platform and nominees, to unite permanently, or temporarily, with the Democratic party in this supreme struggle for the establishment of justice and right as against favoritism and privilege."

"Resolved that we gratefully acknowledge our profound appreciation of the courageous, disinterested and patriotic course of many Republicans, and in particular, a number of the most distinguished leaders and editors, in declaring their intention to support the Democratic nominees in the pending Presidential contest."

Various plans of raising campaign funds were discussed, but no action was taken.

Secretary Davies suggested that the roll be called and that each committee member announce how much money his State would contribute toward the campaign fund.

Committee member W. R. King of Oregon objected to this plan on the ground that voters might interpret any attempt to raise a large sum for campaign purposes as a corruption fund.

WILSON'S MAN IS ACCEPTED.

Norman E. Mack, the retiring chairman, yielded the gavel to McCombs. "I cannot hope to achieve success unless I have the entire support of this committee, which I believe I have," he said. "I am going to do you during the campaign to consult with me freely."

FROM CHAMP CLARK.
Committee member Costello, District of Columbia, read a letter from Speaker Champ Clark, which said: "I hope the committee will formulate plans wisely for the success of Wilson and Marshall and organize for the campaign immediately and thoroughly."

A telegram of thanks was sent to Speaker Clark.

As to raising campaign funds, Mack urged the policy of popular subscription to be procured by appeals to newspapers.

The committee left tonight for Indianapolis to meet Gov. Marshall.

GOVERNOR'S RESOLUTION.
The following resolutions offered by Senator Gore, who sat in the committee on a proxy, were adopted: "Be it resolved by the National Democratic Committee that we congratulate the country and the Democracy on the exceptional prospects of Democratic success in November. We rejoice that all Democrats everywhere are united and enthusiastic in support of the platform and nominees of the party. We earnestly invite all voters without reference to previous political faith or affiliation, who are in sympathy with such platform and nominees, to unite permanently, or temporarily, with the Democratic party in this supreme struggle for the establishment of justice and right as against favoritism and privilege."

"Resolved that we gratefully acknowledge our profound appreciation of the courageous, disinterested and patriotic course of many Republicans, and in particular, a number of the most distinguished leaders and editors, in declaring their intention to support the Democratic nominees in the pending Presidential contest."

Various plans of raising campaign funds were discussed, but no action was taken.

Secretary Davies suggested that the roll be called and that each committee member announce how much money his State would contribute toward the campaign fund.

Committee member W. R. King of Oregon objected to this plan on the ground that voters might interpret any attempt to raise a large sum for campaign purposes as a corruption fund.

Secretary Davies suggested that the roll be called and that each committee member announce how much money his State would contribute toward the campaign fund.

ACCUSER OF THE POLICE

SHOT DOWN IN GOTHAM

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, July 15.—Herman Rosenthal, a gambler, whose charges of graft against leading officials of the New York police department led to a thorough investigation into the workings of the department, was shot and killed early this morning in West 47th street.

Rosenthal was standing on the sidewalk about 1:30 o'clock this morning when a large touring car containing six men drove up to the curb. One of the men jumped out and walking close to Rosenthal, drew a revolver and fired.

Rosenthal's slayer re-entered the automobile, which sped quickly away. Rosenthal, who is proprietor of a gambling house, two days ago applied for warrants for two leading members of the police department, charged with oppression. He was an ally of the police department was a partner in his gambling business. He was shot by a guard who was on duty at the time. The police officer who shot him was not injured. The police officer who shot him was not injured. The police officer who shot him was not injured.

New Angle Develops in the

Hanford Inquisition.

Allegation that the Judge

Was Too Liberal.

Testimony of a Dead Man Is

Put in the Record.

BY A. P. DAY WIRE TO THE TIMES.]

ST. PAUL, July 15.—Alleged ex-

cessive fees to alleged professional re-

ceivers was taken up today by the

House Judiciary subcommittee in-

vestigating the charges filed against

United States District Judge Cornelius

H. Hanford.

Mr. H. Hanford, who was at-

torney for the Credit Men's Asso-

ciation, in the Charles Knicker &

bankruptcy case, testified of al-

leged irregularities in Judge Han-

ford's conduct in connection with the

case. On complaint of witnesses, he

said, the judge reduced the fees of

Receiver Sutcliffe Baxter and his

attorneys, and later the Circuit Court

of Appeals cut the allowances in half.

IN AN ADDRESS.

Witness who he had made at a

close of the Credit Men's Asso-

ciation, in which he had told of an in-

crease of 50 per cent, had been al-

leged, and which, after being under-

stander and Trustee Sutcliffe Baxter

and his attorneys, paid less than

10 per cent. Witness testified

that in his address he had spoken of

the Western Steel Corporation bank-

ruptcy case, in which \$50,000 was al-

leged the receivers, trustee, referee

and attorneys, some of the allowanc-

es being ordered before later claims

of debtors were passed upon.

ON A STREET CAR.

Victor Carlson, a painter, testified

that on July 15, 1911, he was on a

street car on the street

when, in the opinion of wit-

ness, the judge was drunk.

The Heckman & Hanson bank-

ruptcy investigation was closed today

by the testimony of Attorney Jer-

ald Landon Finch. Richard A. Bal-

inger, whom Finch charged with con-

spiring to wreck the estate of the

bankrupt, did not testify. Chairman

Johnson of the committee, who was

the majority report of the Ballinger-

Finch committee, asked no question

of any witness concerning the bank-

ruptcy case, but did not subjoin.

At the night session Anderson con-

semita, which arrived today. Capt.

W. J. Smith said that the rats were all

in good shape.

The first one, belonging to the Ben-

son Lumber Company, was encoun-

tered on the south of San Fran-

cisco, off Point Seaward, in tow of

the Hercules; the second, which is a

Hammond raft, was seen thirty miles

north of Cape Mendocino, in tow of

the Francis H. Leggett, and the third

was met off Cape Lookout yesterday.

Sound for San Diego in tow of the

tug Dauntless.

The last is the second Benson raft

to leave the river this season. Thus

far all the log rafts leaving the Co-

lumbia this season have been routed

for Southern California.

OREGON EXECUTIVE IS PARTICULARLY

Pleased That San Quentin Officials

Have Followed His Advice.

BY DIRECT WIRE TO THE TIMES.]

LEBANON (Or.) July 15.—[Exclu-

sive Dispatch.] "Aha! So they're

coming to it," commented Gov. West

today, when informed that San Que-

ntin Prison had arranged to segregate

prisoners into three classes—first, sec-

ond and third grades—and that first

grade prisoners will be clothed in civil-

ian garments and will work, play and

eat apart.

The governor is here on his horse-

back ride to Boise, Idaho.

"It was the officials of San Que-

ntin, I think, who were most cauti-

ous, but a few weeks ago," said

the governor, "they themselves

have recognized the principle on which

our policy is based—that convicts who

do their best in prison are entitled to

something beyond what their fellows

eat who show no signs of reform."

The governor said there is no ques-

tion that the reform adopted at San

Quentin was the right course to pur-

sue, and seemed much pleased that

the officials of San Quentin had

been so far ahead of him in the

plan. He said there must be some

way to separate the sheep from the

goats, and give all the encouragement

and reform all the encouragement

possible until he betrays the confidence

placed in him.

The governor was rigged out in regu-

lar cowboy style, had a new saddle,

presented by a Pendleton firm, was in

high spirits, and expected to reach

Boise on July 21.

A SAFE-CRACKER'S JOKE.

LOOTS A SALOON SAFE.

NEW REGALIA.

DETECTIVES

IN SILK HATS.

They Will Appear as Guests

at Crocker Wedding.

Rumor of Threatening Let-

ters Sent to the Bride.

Chief of Police Will Detail

Men to Police Church.

BY FEDERAL (WIRELESS) LINE TO THE TIMES.]

SAN FRANCISCO, July 15.—[Special

Dispatch.] Naturally, with all this out-

pouring of money, with the aristoc-

racy of California gathered together

displaying collections of jewels, there

must needs be another expense for

the Crocker-Whitman wedding de-

tectives.

Hillbros will be generously sprin-

gled with plainclothesmen tomorrow.

They will wear top hats and Prince

Alberts and mingle with the wedding

guests; they will snoop around the

wedding reception, they are Tom

starrs; they will be disguised as gar-

dener and waiters, cooks—almost

everything but best men. The Cro-

cker pearls were lost once and the

possible jewels were also stolen. If

there will not be a repetition of

these events.

Town Marshal Conens of Hillsboro

is having an extra force of ten men

to guard the wedding guests and the

wedding presents. Chief of Police

White of this city today detailed six

of his most expert detectives to ac-

company the San Franciscans who

will make the trip to San Mateo to-

morrow morning. The three, Theo-

regan, Arthur McQuade, William A.

Poel, David Murphy, Joseph Redmond

and Jerry Dixon.

THREE HUNDRED GUESTS.

SOCIETY IS ALL AGOG.

BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, July 15.—But

200 guests will witness the

tomorrow of Miss Jennie Crocker of

this city to Malcolm D. Whitman of

Brookline, Mass., and society is all

agog to study the invitation list for

a new roster of the local elite. As

the number includes many of the

friends, now on the way from the

East, the list of local eligibles has

consequently shrunk.

Elaborate precautions taken to pre-

vent intrusion on the Crocker estate

at Hillsboro will make it difficult

for either the society or the "jimmies"

to be applied successfully during

the next few days. A small

SOUNDS A WARNING.

State Labor Commissioner Says a

Concerted Attack Is to Be Made

on Eight-Hour Law for Women.

BY A. P. DAY WIRE TO THE TIMES.]

SAN FRANCISCO, July 15.—State

Labor Commissioner John P. Mc-

Laughlin has sounded the warning to

labor-unions throughout the State

that an attack on the eight-hour law

for women is to be made at the next

session of the State Legislature. Mc-

Laughlin says Gov. Johnson has been

apprised of the fact that the pre-

liminary work of organizing the fight

is going on.

"Gov. Johnson and I are aware that

the employers are planning to bring

about the repeal of the eight-hour

law if it is possible for them to do

it," said McLaughlin. "If they fail

in striking the statute from the books,

they hope to obtain its modification

to such an extent that it virtually

will be inoperative."

BEYOND HIS DEPTH.

BOY SWIMMER IS DROWNED.

CHALLENGE
TO A DUEL.GOVERNOR OF SOUTH CAROLINA
WOULD LIKE TO FIGHT ONE.

Calls the Man Who Accuses Him of Wrong Doing in Office Harsh Names and Threatens to Slaughter Anybody Who Says He Believes Feltner Is Speaking the Truth.

[By Federal (Wireless) Line to The Times.]

COLUMBIA, S. C., July 15.—[Special Dispatch.] Tossing red hot darts at Thomas B. Feltner to settle their differences in a duel and violently denouncing every member of the investigating committee from South Carolina, which has been investigating the charges of Feltner and the evidence of the photograph in Augusta, Gov. Cole Blaise today declared that Mr. Feltner was a thief. He said: "I will give any man \$1000 who will get Tom Feltner two feet off this side of the Savannah River, and let me be present."

OTHER HARSH NAMES.

The members of the committee replied "utter snipes" and other harsh names. "If they will come to me," he continued, "I will call them something for which any man in South Carolina will fight," and he invited a member of the committee who did not like what he said to meet him on the streets of Columbia and shoot it out with him.

The Governor denounced the committee for meeting in Georgia instead of South Carolina, spoke of Georgia as a state that can't raise anything

Cole Blaise, Governor of South Carolina, who yesterday challenged to fight a duel the man who accuses him of wrong doing in office.

but degenerates and watermelons, and of Brown of Georgia "as a man who did not have sense enough even to raise a watermelon."

AGAINST THE LAW.

"It is against the law to send challenges in South Carolina, but if any of the committee will come to me and tell me he believes what Tom Feltner said, I will shoot him dead," said Charles Smith, Lieutenant-Governor of South Carolina.

PITH OF THE DAY'S NEWS
FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO BUREAU OF THE TIMES, July 15.—[Exclusive Dispatch.] Cool winds from the north brought decided relief to Chicago and this vicinity today. The heat wave had slain fifty-five babies in Chicago in three days. The maximum temperature was 75 degrees and the minimum 62 degrees. Northeast wind, twenty miles an hour. Other temperatures:

	Max.	Min.
Albany	85	45
Bismarck	74	40
Calo	82	78

RAILROAD SAFETY RALLY.

TOPEKA (Kan.) July 15.—[Exclusive Dispatch.] J. D. M. Hamilton, claims attorney for the Atchison, Topeka and Santa Fe Railroad, announced today that there would be a safety rally of all the railroad employees of the roads entering Kansas City, held in that city, September 14. The preliminary plans for the big meeting, to be attended by from 8000 to 10,000 railroad men and their families, were started today. W. B. Spaulding, claims attorney for the St. Louis and San Francisco Railroad, will have five rods of moving pictures made showing the railroad shops, yards and trains and how men get hurt and killed while working for the railroads. Another set of pictures will show the same scenes and show how men can prevent accidents by being careful.

DRUMMOND SAFE IN SAN DIEGO.

ST. LOUIS, July 15.—[Exclusive Dispatch.] Charles R. Drummond's honeymoon with his fourth bride, in San Diego, Cal., will not be interrupted by the credit for having introduced the harem-veil fad in Newport. The veil is much like the covering which many high caste Turkish women still wear over the lower part of their faces when they appear on the streets in public. Mrs. Gordon Douglas is one of the Newport women who advocates the adoption of the custom in America. She appeared veiled in public the other day and a photographer got a snapshot of her.

ANTS STOP CONSTRUCTION.

CINCINNATI (O.) July 15.—[Exclusive Dispatch.] Work has been stopped on the big skyscraper being erected for the Union Life Insurance Company while the contractors are attempting to solve the problem of how to get rid of two large nests of ants.

which have been found beneath the foundation of the structure. The nests are each as large as a man's head and the contractors are in fear of disturbing them because they may be disturbed and break and give trouble to tenants to occupy the building when completed. The ants were found in two spires of halls. The ground under the building is sandy, which accounts in a measure for the presence of the ants. Various suggestions have been made as to how to kill them all at once. The most likely now being considered by the contractors is a proposal to engulf the two hills in some fiery acid and they will kill the ants and dispose of the remains.

KICKING AT TAXES.

CHICAGO BUREAU OF THE TIMES, July 15.—[Special Dispatch.] Declaring that a concentrated effort was being made by Chicago realty owners to cut down the taxes on real estate, using the high values of last year as a basis, the Board of Tax Review today decided to ask indignant acquiescence of every man or woman guilty of misrepresenting actual conditions. The valuation last year was admittedly high. Really owners, taking advantage of this fact, started a publicity campaign this spring to emphasize the amount of money they were compelled to pay last year, asking that a certain amount of abatement be allowed this year to strike an average. Every realty owner who has asked for reduction of taxes this spring has used the argument of high valuation last year and the nice, bright-red lead figures. One realty man succeeded in getting a reduction from \$180,000 to \$152,000 and this fact has been used as the basis for all arguments.

CAMPAIGN PENCILS BARRED.

ST. LOUIS PARK (Miss.) July 15.—[Special Dispatch.] Campaign "tagging" of the candidates' pictures are things of the past, as far as Illinois is concerned. The Attorney-General of the State today declared he would render an opinion branding them as unlawful. Candidates all over the State are in a quandary. Thousands of pencils have been ordered and millions of yellow cards. Under the corrupt practice act, however, they must all be held in secret until after the election and at that time they are valuable.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The Mayor and Engineer Goodrich held a conference yesterday and the Mayor later stated that the prospect is good for new contracts on harbor development work being awarded within forty days.

The City Council yesterday recommended that the Playground Commission and the Board of Education cooperate in opening all the public school grounds for vacation playgrounds.

The city of Los Angeles and a property owner won the first skirmish in the Superior Court yesterday in a suit asking to restrain the property owner from proceeding with the construction of a \$200,000 apartment-house on account of a realty deal.

At the City Hall.

HARBOR PROGRESS PROSPECTS GOOD.

MAYOR HOPES FOR NEW CONTRACTS IN FORTY DAYS.

Says "If He Gets His Harbor Commission Completed Today There Is No Reason to Prevent Much Advancement of Development Plans Within Short Time."

Contingent upon his ability to complete a new Harbor Commission today, Mayor Alexander, stated yesterday that he believes great advancement on harbor plans will be made within the next forty days and that contracts will be let for some of the most important work.

Engineer Goodrich conferred with the Mayor yesterday forenoon and discussed the general plans for harbor development. He declared that the work on the Huntington fill must begin from the land end and proceed toward the south, so that at whatever stage the work reaches when the money is exhausted, the fill will be in readiness for use. He favors the use of concrete in the permanent improvements of the Huntington fill and wood construction at Wilmington, where the wharf development will be planned for ten or twelve years, with the idea of later substituting more permanent material.

Should the Mayor succeed in completing his Harbor Commission today, the programme is for a meeting as soon after the Council's confirmation of the appointment as possible, whereat the board would be organized, ready for official action. Johnnie and Woodman have been visiting the harbor and meeting in the Harbor Commission's office, but simply as individuals, for the purpose of familiarizing themselves with the work they have undertaken. On Saturday Woodman qualified and yesterday Johnson took the necessary oath.

If the commission holds a regular meeting this afternoon, it is probable that Engineer Goodrich will appear before it and present plans for the proposed Wilmington wharf and the Huntington fill improvements, so that immediate action can be taken by adoption of the plans. Then the Board of Public Works would be in a position to proceed with the advertisement for bids.

"I believe we can have new contracts awarded for this work within forty days," said the Mayor yesterday, "and that within a very short time the actual work on this new development can be begun."

BONNA WANTED.

The Park Commission today will ask the City Council to provide for the payment of a bonus of \$25 a month to the automobile bus line which William Mead has established to operate from Sunset boulevard and Vermont avenue to Vermont canyon. The route is to be operated every thirty minutes and carries four passengers. The route is one and a half miles long and the present fare is 10 cents each way. With the bonus the offer is made to reduce the fare to 5 cents each way. The Park Commission is anxious to induce more visitors to Griffith Park, and therefore recommends the payment of the bonus.

Has No Jurisdiction.

The City Attorney yesterday notified the City Council that he has no authority to make modifications in the specifications of the contract between the Board of Public Works and the Metropolitan Construction Company for street sprinkling, over which there has been controversy for several months. The Council then decided to recommend that the Board of Public Works make a new contract with this company, or to modify the specifications provided this can be done without jeopardizing the city's interests.

Playgrounds at Schools.
The City Council yesterday adopted the recommendation of the Streets and Boulevards Committee that the Playground Commission confer with the Board of Education in reference to keeping open all school grounds within the city as playgrounds for children during vacation, and thus eliminating the danger of children playing on the streets.

Will Not Close Alley.

The request of the Board of Education that the alley at the rear of the McKinley-street school be vacated was turned down by the City Council yesterday, upon recommendation of the Streets and Boulevards Committee. The Council takes the ground that as the city is being petitioned from time to time to bring proceedings to open alleys through blocks, it is a matter of policy to close alleys, and that in this instance the closing of the portion adjoining the school grounds would render useless other portions of the alley through this block.

Will Know Today.

Members of the City Council who visited San Francisco in search of a man to place at the head of the recently created Bureau of Fire Alarm and Police Telegraph, will not know until today whether their mission was successful. They have urged Arthur Kempster, who has been in charge of the establishment of a similar system in San Francisco, to accept this position, and he is to notify them today as to his decision. San Francisco has constructed its own alarm boxes under Kempster's supervision.

At the Courthouse.

ROUND ONE IS EASILY CITY'S.

WITH PROPERTY OWNER IT WINS PECULIAR SCRAP.

Plaintiff Holds Option on Lot Which Expires and Lot Is Bought Direct from Owner—Alley With Jog and Exchange to Even Lines Figures in Suit.

The city of Los Angeles and W. H. Bryson won the first round in a legal skirmish in Judge Goodrich's court yesterday where the demurrer to the complaint filed by E. Rabin was sustained with leave to amend.

Rabin sought to have Bryson restrained from proceeding with the construction of a \$200,000 apartment-house, at Wilshire boulevard and Rampart street, and the ordinance vacating the alley running between Benton boulevard and Rampart street declared void.

It seems that Rabin had an option on a lot on Rampart street, adjoining the alley. Bryson owned the lot on the other side of the alley. The alley has a jog and in order to have a straight line, and an option on the other lot, but refused to pay Rabin's price. He waited until Rabin's option expired and then bought the property from the owner.

Bryson deeded the city twelve and one-half feet in exchange for that part of the alley containing the jog, thus eliminating the latter, and proceeded with the construction of a nine-story apartment-house. The latter has reached the third story, and an injunction trying up the work would mean the loss of thousands of dollars. Attorney Richard Culver represented Bryson.

ONLY ONE SIDE HEARD.

WIFE DENIES ALLEGATIONS.

The burden of the testimony of Mrs. Genevieve Winterbottom Mowrer, who is seeking a divorce in Judge Buckley's court, is that she is a sensitive and loving wife harassed by the unreasonable jealousy of her husband, Frank R. Mowrer. Refused, intelligent and of commanding figure, Mrs. Mowrer, daughter of a Chicago millionaire, bears the brunt of a grilling cross-examination in a way that commands attention.

She meets the damaging allegations of her husband with what appear to be reasonable explanations. Although her allegations bristle with incidents of cruelty, beginning with the day they were married in Copenhagen, November 18, 1903, and cropping out in trains, in hotels and other public places, she was not nonplussed when affectionate letters were shown her which she had written to her husband.

These letters were inspired, it would appear from her testimony, from a desire to do a "good deed" and to help her husband. Although she was merely for the purpose of hearing news of her husband and from no ulterior purpose, Mowrer has not yet taken the stand. Neither has Gipp, a Chinese servant, been heard, a remarkable incident of a Celestial being drawn into a Caucasian divorce suit as an alleged witness. Gipp sits silent as a statue, on the steps within call of the hall of Justice, waiting for the summons to appear. He says he doesn't like the job.

UNWILLING WITNESS.

GIRL TELLS OF THREAT.

Miss Andrea Gonzales proved an unwilling but an important witness in the trial of Nieves Romero charged with the murder of Pedro Flores at Lankershim on April 22, last, on trial in Judge McCormick's court yesterday. Deputy District Attorney Veltch sought to show that Romero was jealous of the former paid Miss Gonzales. He says he doesn't like the job.

WIFE MAKES DISCOVERY.

GIRL TELLS OF THREAT.

"I supposed my husband was a mining man, but I found he was a gambler, and he was gambling," declared Mrs. Lottie J. Dargin in Judge Denmore's court yesterday. She admitted she did not know what her husband was doing until she discovered a corroborative witness testified Dargin is a large man who looks like a prize fighter. The decree was granted on the showing that Dargin failed to reply to his wife's letters as to when he intended joining her, and she contributed nothing to his support. She is a demonstrator and formerly lived in Colorado.

Gill, John W. Crump, James W. Hawk and James H. Fountain, capital stock \$500,000, subscribed \$5.

IN THE INTERIOR COURTS.

Self-Protection Costs Chinese Gardener Dear.

When Chin Ng, a Chinese rancher near Hollywood, started for town yesterday he fortified himself against possible highwaymen. He had in mind the experiences of fellow-countrymen who were robbed several weeks ago near Compton. In one pocket Chin placed a revolver. In another a long knife. In his belt Chin slipped a hatchet.

"I carry these self-protection," said Chin, when arraigned before Police Judge Frederickson yesterday on a complaint made by Patrolman Lockridge.

The justice said he could hardly blame the Chinese in this circumstance, but told him he was a violator of the law and fined him \$30 or thirty days. Chin paid his fine.

Objection to Sanatorium.

Inspector Maud Summers of the Board of Health filed a complaint in Police Judge Frederickson's court yesterday charging Mrs. Margaret F. Birch with violating the health ordinance by maintaining a hospital for tuberculosis patients within fifty feet of a building occupied by other persons. The hospital is located at Avenue Fifty-six and Hub street. The woman will probably be arraigned in court today.

Neglect to Register.

Jack Shogloff, James Brady and A. Sarata failed to register Sunday night before they sought repose on the warm sands in the river bed. They were sleeping soundly when Patrolman H. H. Wheeler found them. They continued their interrupted slumbers on cots at the Central Station. Shogloff and Brady were fined \$10 or five days by Police Judge Frederickson. Sarata, who had been warned away from the river bed, was fined \$10 or ten days. The men went to jail.

FIGHT FOR LIBERTY.

TUFTS ASKS NEW TRIAL.
Attorney Carpenter, chief counsel for Gorham Tufts, Jr., convicted by a jury in Judge Cabanias' court of having obtained money under false pretenses, said yesterday he intends to carry the case to the Supreme Court.

He moved for a new trial, naming several reasons. He said that the court misdirected the jury in the matter of law and erred in the decision on the question of law in that under all of the evidence in the case, the power-of-attorney which Tufts was found to have abused was shown to be legally revived and re-established and that Tufts made no misrepresentation when he said he had such power-of-attorney.

The argument will be heard tomorrow morning at 9:30 o'clock, and will revolve largely around this point raised by the defense. Deputy District Attorney Horton will oppose the granting of a new trial.

HEAD BUMPS MIRROR.

WOMAN WINS DAMAGES.

Judgment for \$2000 was given Mrs. Pauline Leeb against the Salt Lake Railroad by a jury in Judge Covert's court yesterday afternoon. She asked \$20,000 damages. The accident which she alleged would result in permanent injuries occurred on Salt Lake limited train No. 7 at Milford, Utah, December 23 last.

While she was in the ladies' dressing-room, her testimony showed, the train, which had been standing still, was violently jerked by the engine coupling on and her head was thrown against a mirror. The company denied that she was injured or that there was a mirror in the room where the accident occurred, and will appeal.

COURT REVOKED WILL.

INVALID UNDER MARRIAGE.

When the rather unusual will of Frank T. Downer came up for probate yesterday it cropped out in the evidence that he had remarried after dissolving his first marriage, and Judge Rives ordered its revocation.

Under the will, dated June 12 last, Downer left his \$2000 estate to his only child, a daughter, Lela, and \$5 each to his daughters, Lela and Ruth, and instructed that \$1 be given to "any other son or daughter that can rightly prove their descent." There was no protest from the widow, Charlotte E. Downer, when the court made his order. No money, he said, had ever been passed in the transaction.

EIGHT MORE LIVES LEFT.

Cat Accused of Dying Comes Back and Muffles Up Trial of Man Accused of Killing It.

"But the cat came back," Mrs. Zier insisted. She said that she saw M. G. Smith from paying a \$5 fine in Police Judge Williams' court at University Station, although its owner, Mrs. George Zier of No. 315 Clarendon street, apologized for accusing the real-estate operator of killing the animal that wasn't killed.

A mystery has developed nevertheless. Smith now wants to learn who owned the cat whose body he produced in court yesterday. He carried out the cat in a gunnysack, and, after the court proceedings, Smith wandered out of the room looking for a place to dispose of the carcass. His denials once believed was that of her cat, but now disowns because here came back.

Smith's arrest last week for discharging firearms within the city limits. Smith's examination developed that the woman accused him of shooting and killing her pet. Smith denied this, saying: "My aim isn't good enough."

He insisted that the body of the cat claimed by Mrs. Zier didn't have the bullet wound in it, Justice Williams commanded Smith to produce the carcass. He did so yesterday.

"That isn't my cat!" exclaimed Mrs. Zier. "For mine has returned home." "Well, I'll be—well, whose is it?" asked the astonished Smith.

"Yours, I guess," laughingly replied the justice. "You seem to have first claim to it, as you have it in a sack."

"But I don't want it," expostulated Mrs. Zier. "Neither do I," replied Mrs. Zier. The bailiff and the clerk declined with thanks, and the justice shook his head, ordering:

"Take it away." Smith did, but not, however, until he had paid \$5 for discharging firearms, within the city limits.

Summons Causes Fight.

The failure of Roscoe Westmoreland to respond to a court summons served on him last week by Deputy Constable George W. Wilson led to a fight between them and a trial yesterday morning before Police Judge Frederickson. Wilson was fined \$20 or twenty days, and Westmoreland \$10 or fifteen days. The men were arrested by Patrolman R. L. Shy, who saw the disturbance as he passed Second and Los Angeles streets on his way to work.

Glacier Point Trail Now Open.

In the Yosemite Valley, California, the 10 planning your vacation, decide on visiting this wonder of the world. The trail is now open. 600 South Broadway, room 10, 1010 Broadway, room 10, 1010 Broadway, room 10.

No Case. SERIOUS CHARGE, NARY WITNESS.

PRISONER OF ONE WEEK GOES FREE FROM COURT.

Had Been Taken from Wife and Returned from Globe on Telegraphed Warrant at Expense of County—One Man Called, but Doesn't Tell Story as Expected.

Despite the fact that W. W. Springer, charged by officers of the Lark Motor Company with embezzlement, had been brought back at the expense of the county from Globe, where he was arrested ten days ago on a telegraphed warrant and taken from his wife, there was not one witness to appear. One witness was on hand, who it had been stated to the District Attorney, had paid \$150 to Springer for the motor company. He was called, but his story was that Springer had told him to apply this \$150 on the witness' account with which Springer had no money, he said, had ever been passed in the transaction.

Deputy District Attorney Keyes, who represented the State, was much chagrined at the failure of the witness to appear. One witness was on hand, who it had been stated to the District Attorney, had paid \$150 to Springer for the motor company. He was called, but his story was that Springer had told him to apply this \$150 on the witness' account with which Springer had no money, he said, had ever been passed in the transaction.

Under the will, dated June 12 last, Downer left his \$2000 estate to his only child, a daughter, Lela, and \$5 each to his daughters, Lela and Ruth, and instructed that \$1 be given to "any other son or daughter that can rightly prove their descent." There was no protest from the widow, Charlotte E. Downer, when the court made his order. No money, he said, had ever been passed in the transaction.

WANTS NOTE BACK.

DESSERT-LAND DEAL.

George E. Wroclawski obtained an order to show cause from Judge Williams yesterday to restrain George W. Forester from disposing of a \$3000 note which Wroclawski complains Forester secured on fraudulent representation. The note was given, Wroclawski states, for a government desert claim. Forester held in Kern county. Wroclawski alleges he was told plenty of water would be developed for irrigating purposes and that apples and grain could be raised.

Wroclawski accompanied Forester on an inspection of the land, but never found it, as he alleges the roads were so bad that they could not proceed and that Forester had once believed the return of the note and was refused.

COURTHOUSE NOTES.

BREVETED MACHINIST.

WRIT ASKED FOR. Argument to show cause why a writ of prohibition should not issue against Justice Forbes will be heard by Judge Williams today in the case of A. J. Orrick and W. M. Forester. The woman accused him of shooting and killing her pet. Smith denied this, saying: "My aim isn't good enough."

He insisted that the body of the cat claimed by Mrs. Zier didn't have the bullet wound in it, Justice Williams commanded Smith to produce the carcass. He did so yesterday.

"That isn't my cat!" exclaimed Mrs. Zier. "For mine has returned home." "Well, I'll be—well, whose is it?" asked the astonished Smith.

"Yours, I guess," laughingly replied the justice. "You seem to have first claim to it, as you have it in a sack."

"But I don't want it," expostulated Mrs. Zier. "Neither do I," replied Mrs. Zier. The bailiff and the clerk declined with thanks, and the justice shook his head, ordering:

"Take it away." Smith did, but not, however, until he had paid \$5 for discharging firearms, within the city limits.

Summons Causes Fight.

The failure of Roscoe Westmoreland to respond to a court summons served on him last week by Deputy Constable George W. Wilson led to a fight between them and a trial yesterday morning before Police Judge Frederickson. Wilson was fined \$20 or twenty days, and Westmoreland \$10 or fifteen days. The men were arrested by Patrolman R. L. Shy, who saw the disturbance as he passed Second and Los Angeles streets on his way to work.

WATER PROBLEM NOW OVERCOME

Amalgamated Saves Oil Spill from Damage.

Palmer Expects to Reclaim Erstwhile Gusher.

New Developments Also Be Initiated.

The Amalgamated Oil Company the Pullerton field has succeeded in solving the problem of water in the oil sands after many months of effort. The problem and the infiltration of water in the oil sands have been deemed a serious menace, but Amalgamated, has made a good thing out of the water in No. 6 well. This well is the deepest on the lease, being 2392 feet, and is now after many months of illness producing 300 barrels of oil per day. The lower water for several weeks came in at a temperature of 137 degrees Fahrenheit, hotter than the standard, and the source proved inexhaustible. The well was plugged so that now it is producing the oil devoid of any water whatever.

This was accomplished by putting down 400 feet of cement or concrete reinforced with iron shavings, the first time such was ever undertaken in the Pullerton field. No. 6 well formerly looked like a failure is now making money as a result of the experiment.

The Amalgamated also has No. 7 on the Pullerton field. The well, now at the rate of 350 barrels per day, is the second best on the lease. It is 2100 feet deep and there is enough gas to run the entire drilling equipment well permit No. 6 to flow about a week for a test and may decide to go 300 feet deeper. The oil is lighter than that from No. 2, reported at 23 and 24 degrees. No. 6 is the southeast hole of the Pullerton field and not far from Petroleum No. 1.

The comparative experience of the Pullerton field and the Amalgamated shows that it is better to drill up well in that region with standard tools as the Petroleum appears to have passed through the stratum found in Amalgamated No. 6 with out being aware of it with the rotary drill.

With its other wells the Amalgamated is having good luck. No. 1 is setting down near the oil sands. No. 2 is the second best on the lease. No. 3 is the third best on the lease. No. 4 is the fourth best on the lease. No. 5 is the fifth best on the lease. No. 6 is the sixth best on the lease. No. 7 is the seventh best on the lease. No. 8 is the eighth best on the lease. No. 9 is the ninth best on the lease. No. 10 is the tenth best on the lease.

In Santa Maria. The Oilfields Syndicate on the John B. Wells has caused some excitement in the southernmost California district. The Shaw ranch, containing about 5000 acres, and adjoining the Pullerton field, has been taken over by the Santa Maria Oil Company. A. Dougherty of the Palmer Annex was moving factor in the deal and some of the new developments are expected as a result.

SOCIETY

EIGHT HUNDRED relatives and friends are invited to witness the wedding this evening in Immanuel Presbyterian Church of Miss Helen McVay, daughter of Mr. and Mrs. William E. McVay of No. 1130 West Twenty-ninth street, and Harold Paulin.

Last evening Mr. and Mrs. McVay entertained with a dinner party for their daughter and Mr. Paulin, together with members of their bridal party and a few friends. The feast was served on the veranda at small tables decorated with rare flowers and greenery. Dainty favors marked covers for Miss McVay, Miss Laura McVay, Miss Charlotte Cowles, Miss Helen McVay, Miss Virginia Newhall, Miss Margaret Scott of Honolulu, Miss Elizabeth Colt of New Jersey, Miss Louise Roberts, Miss Janet Bryant, cousin of the bride-elect from Illinois, Miss Francis McVay, Harold Paulin, George Paulin, Burris Bonan, Samuel Dick, Benjamin Thompson, George Wilson, Nelson Douglas, Clyde Collison, Rev. T. C. Knowles, Maurice Blair and Little Helen Norworthy, daughter of Mr. and Mrs. Walter Norworthy of Ontario, Can. A rehearsal at the church followed the feast.

To Be Attended by Angelinos.

Mrs. William Miller Graham has succeeded in arousing much interesting conjecture as to the nature and object of the "tableaux vivants" which she has announced will be given at the Potter Theater at Santa Barbara on the evening of July 31. It is generally accepted that the performance, which she will personally direct, will be for the benefit of the employees of the Santa Barbara Country Club, whose effects were destroyed in the fire that burned the clubhouse some weeks ago. Mrs. Graham originated the Cafe Chantant, an annual affair given at the country club for several years, and the elaborate and costly scenery used in these productions was burned with the clubhouse.

Wedding Announcement.

Cards have been issued by Mr. and Mrs. Walter Galt, Barnwell, No. 292 West Thirtieth street, for the marriage of their niece, Miss Agnes Galt Barnwell, to Arthur William Saunders of St. Paul, Wednesday, July 24, at their residence, at 8:30 o'clock. Mr. Saunders, who is connected with the Northwestern Fuel Company of St. Paul, is the son of Mrs. M. L. Saunders, and will arrive in this city tomorrow, accompanied by his best man, J. Thompson McMillen, also of St. Paul. Other members of the bridal party will be the sister of the bride, Miss Florence Barnwell, who will be maid of honor, and little Marjorie Simmonds, who will be the flower girl.

From Chicago.

Mrs. Charles Franklin Hills and guests of Mrs. J. M. Erick of Chicago are guests of Mrs. Juana Achey Neal and her daughter, Mrs. Juana Neal Levy of No. 1393 West Twenty-fourth street.

From Baltimore.

Mr. and Mrs. Charles Selden and daughter, Miss Imogene Selden of Baltimore, Md., are guests for a fortnight at the Hervey Arms.

Engagement Announcement.

Mr. and Mrs. John A. Lawrence of No. 1522 Oxford avenue announce the engagement of their daughter, Miss Mabel, to Dr. Ralph William Homer.

At "Vista Del Mar."

Mr. and Mrs. A. G. Bartlett had as guests last evening at their beautiful Hollywood home at Vista Del Mar, members of the Orpheus Club and their friends, whom they entertained with a dancing party and buffet supper. Mr. and Mrs. Bartlett were assisted by their daughters, Mrs. Cecil Franklin and Miss Florence Bartlett. Shasta daisies beautified the rooms.

Pleasant Trip.

Miss E. H. Terrill and Mrs. D. B. Beggs left recently for two months' trip abroad. They will be joined by Mr. Beggs at Plymouth, Eng., from which point the party will journey to the continent, remaining some time in Paris, Berlin and Vienna.

Has Returned.

Miss Grace Elizabeth Allen, daughter of Mrs. Charles W. Allen of Oneonta Park, has returned from a year's stay in the Hawaiian Islands. Miss Allen will remain until the middle of August when she will sail for Berlin, where she will remain several months. She will be at home to friends Tuesdays and Fridays at No. 1839 Fremont avenue, Oneonta Park.

Benefit Dance.

To raise funds for their philanthropic work members of the Queen

A Bridal Bouquet.

Young society girls who will assist at the wedding of Miss Helen McVay and Harold Paulin this evening in Immanuel Presbyterian Church.

Guest of Sister.

Miss S. M. Taylor of St. Louis, Mo., is visiting her sister, Mrs. M. F. Brinkman of No. 2945 Builing avenue.

To Leave.

Dr. and Mrs. J. Alden West will leave this week for a six weeks' visit in Vancouver, B. C., their former home. They will also remain some time in Victoria and Seattle.

Prominent Guest.

Mrs. J. M. Brown of Chicago, a sister of Postmaster Harrison, is the guest of Mr. and Mrs. Harrison at No. 211 Kinley drive. She is accompanied by her daughter and expects to pass several weeks in Los Angeles. Mrs. Brown formerly resided in Los Angeles but has been away from this city for about seven years. She has a host of friends in Southern California.

Chief's Report Shows that Less Property Burns Although There Are More Alarms.

During the fiscal year ending June 30, there were 1681 fire alarms in Los Angeles of which 1468 were for actual fires and 213 were false alarms. The property loss was \$407,484, as against \$1,264,992 the preceding year in 1910.

Fire Dangers Lessening.

Chief's Report Shows that Less Property Burns Although There Are More Alarms.

Case is Postponed.

The preliminary examination of Harry L. Lloyd, alleged smuggler of opium, has been postponed before United States Commissioner Van Dyke yesterday afternoon, but on motion of the defendant the matter went over until Friday. This afternoon the preliminary examination of William Gerold, scheduled but it is the understanding that it will also go over.

\$25.00 to Lake Tahoe and Return.

Barker Bros. ESTABLISHED 1880

724-726-728-730-732-734-736-738 South Broadway
THE LARGEST HOME FURNISHING HOUSE IN THE UNITED STATES

Many Exceptional Rocker Offerings Today at Barker Bros.

An Opportunity for Wide-Awake Home-Furnishers to Save Considerable Money

—This fumed oak Mission Rocker, one of the L. & J. G. Stickley products; medium high back; finest leather spring seat and cushion back; a rocker comparing with the very best values offered in a similar way up to \$35.00. Special at..... \$25

—This handsome "Quality" Reed Rocker; a product of our own reed shops; one of the most comfortable low-priced reed rockers sold anywhere; substantially constructed to give years of service. Exceptional value. Special at..... \$4.00

An Offering Made to Advertise Our Linen Dept.

Buy Linens Today at Prices Lower Than You'd Pay for Cotton Goods

A sale held for the purpose of interesting hundreds of women in our popular linen department. Thousands of yards of plain white linens are offered you in this event from which to supply your linen needs, every yard of which is high-quality material. These linens are suitable for waists, dresses, nurses' uniforms and for art work.

Many women who fancy dressing in linen will now be able to satisfy their desires in a most economical manner. The prices below represent about import cost figures. While quantities in each grade are generous, still we would advise early shopping, for at these prices the goods cannot last long:

1000 yards of 36-inch white union linen that dry goods stores sell at 35c a yard. Special at..... 18c

1500 yards of 36-inch sheer linen; a quality selling in dry goods stores at 50c. Special, a yard, at..... 20c

5500 yards of 30-inch round thread art linens; quality which sells at 30c in dry goods stores. Special, a yard, at..... 15c

1440 yards of 36-inch round thread linen that other stores sell at 50c. Special, a yard..... 25c

780 yards of 36-inch finely woven plain linen; regular price in dry goods stores 60c. Special, a yard..... 28c

Clearance of Dressers

Several Lines in Golden Oak, Fumed Oak, Mahogany and Maple.

—This solid maple dresser—a splendid Colonial copy; hardwood interior; an exceptional value, that would cost in any other store, in the regular way, about double. Special at..... \$15.50

This is only one of many unmatchable values in bedroom furniture that may be found at Barker Bros. this week. It will pay you to visit our store for low prices on dependable, reliable goods.

Some of the Best Brass Bed Values Offered this Season

May be Seen at Barker Bros.

This Handsome Brass Bed, Regular \$25 \$40 Value, Special at..... \$25

A full size bed with 24-inch continuous posts; fine quality satin finish, guaranteed for ten years. One of the best brass beds bargains offered anywhere in the city.

AGED PARSON IN A CLUTCH OF LAW.

MINISTER CHARGED WITH ATTEMPT TO DEFRAUD.

Adventist Declares that His Troubles Are Due to Excess of Exemptions Made When He Changed His Religious Belief—Desert Land Act Made Basis of Prosecution.

E. C. Redman, president of the National Homestead Association, with offices in the Chamber of Commerce building, and Milton S. Babcock, an aged minister of the Seventh Day Adventist faith, residing at No. 50 Worcester avenue, Pasadena, were arrested yesterday by E. R. Dineen, deputy United States marshal, on two indictments returned by the Federal grand jury.

One indictment charges Redman and Babcock jointly with conspiracy in regard to relinquishments in Antelope Valley lands; the other is against Redman individually, who it is alleged committed perjury in testimony given in a contest inaugurated by the government against Pearl H. Jarrett, involving 100 acres of government land in the valley.

The bond in the two cases against Redman was originally fixed at \$5000 on each indictment, but Judge Wetmore reduced this to \$2500 each, and Redman furnished security. Babcock could not produce, and is in the County Jail.

The proceedings in both cases grow out of the alleged doings of Redman and those associated with him in the desert claims in the Antelope Valley. Redman is now at liberty on bond of \$5000 furnished some months ago, on a charge that he used the mails to defraud. The hearing is set for September 23. It is alleged in this case that Redman, as head of the National Homestead Association, made certain false representations in the National Homestead Magazine in regard to the fertility and value of lands in the Antelope Valley, that are not justified by the facts.

The first indictment returned charges that Redman and Babcock conspired to defraud the government in the pretended purchase of relinquishments of desert land entries made by Eugene C. Harrington, one in the territory bounded by Western avenue, Vermont avenue, Adams street and Santa Monica avenue, one at Pasadena avenue and Avenue 46, at Crescent avenue and Avenue 64, Pacific avenue between Seventh and Eighth streets, San Pedro, Pasadena avenue 24, and for fireboat for San Pedro. It is also recommended that private water companies operating within the city enlarge their mains. A more adequate fire alarm service is also urged as an imperative necessity.

RECLAIMED IN COURT.

Girl Whose Parents Can't Manage Her Sent to Another Home by the Juvenile Court.

Of nearly a score of cases before the Juvenile Court at the Detention Home yesterday afternoon only one resulted in a reform-school sentence. One girl, who has been on probation for more than two years was finally dismissed, reclaimed before the law and in the opinion of the probation officers. With congratulations and a hearty handshake from Judge Wilbur she left the courtroom to go to a good home.

The troubles of the Ricciardi family were aired for the third time in the Juvenile Court. Seventeen-year-old Mary was characterized as incorrigible by her parents, but the probation officers gave her a favorable report. The father, in his efforts to enforce obedience, had given her a black eye once, and at another time had chased her away from the home with threats. The court decided to have Mary live away from home for a time.

Judge W. R. Guy of the Superior and Juvenile courts of San Diego and Christopher Ruess, chief probation officer of Alameda county, were visitors at the court.

NEVADA DIVORCE NOT SO EASY.

WOMAN EXPLODES FALLACY OF FUNNY PAPERS.

Tells of Pains and Expense She Went to Get Legal Separation and Then Failed—Court Finds Problem Too Abstruse to Be Decided Offhand.

A divorce, swift and decisive, was what Mrs. Clara E. Deeds and her husband decided on, she told Justice Sumnerfield yesterday in her suit against Thomas E. Burns for \$40.

But she did not get it, nor did her husband, although the husband paid her \$100 for her expenses and \$25 for the fees to go to Goldfield and procure a legal separation just as soon as the law would let her. Incidentally, she threw a sidelight on Nevada divorces and intimated that they are not so easy to get as the funny papers assert.

Mrs. Deeds' narrative was all the morning in the telling. She said when her husband decided on the divorce, she went to Burns, who, she said, was a divorce agent, who told her that she should go to Goldfield, where, because the courts would not have jurisdiction, as she was really a resident of California. So she returned to Los Angeles, although her husband had followed her to Nevada in order to accept service of the papers in that State. Then she and her husband had a division of property, and she was given an apartment-house, she said, which she sold for \$500.00. The husband testified, she said, \$500 to Burns as his commission.

That being settled, she sued her husband for separate maintenance, but this suit, although she said she paid Burns \$300, was withdrawn through an understanding between her husband and herself. Now, she said, since Burns had agreed to get a Nevada divorce for her for \$40, and had not procured it, she wanted \$40 back.

Burns testified that the fees alone cost more than \$40 and that he never agreed to give the money back. He laughed at the idea. As for the other payments, they were not contested.

The court said the financial statements were too complicated for ready comprehension and took the case under advisement.

Mr. Wad Thought He Was Going to Get a Vacation---But He Got What He Was Ballyhoing for Instead!

SPORTS

BY OWEN R. BIRD

In starting at all the sports on the silver screen, one should have an extra bit of time in the home, but as none of the regular humans have been so used, we will have to do the best we can with the one pair at hand and the proper use of the rubber set across the shoulders and chin.

Under Star in Uncle's Crown.

There is another star in the athletic arena, one who is the silver screen, one who is the great showing made by the American Olympic team in the summer in the international games at Stockholm, Sweden. Last season the Tankers won; this season it was a walkway. Now, many are wondering why our athletes seem to have it on all the other nations. Tanks and France are nice to look at in a easy case, but they never deliver the goods as a whole. The American athlete has made a business of winning. The form used by the Tankers in all the athletic events is the best, as the style of the American boxer has proven better than the English. It will be remembered that the hook and uppercut were developed on this side, in the Tankers.

The American college coach finds much to be learned from the Tankers. He has to develop all sorts of new methods to win. Take, for instance, the sprinting start. No man in the world has a better style of getting off the marks than the American college sprinter. The athletes are trained to do all the little things well, such as the proper method of breathing, starting, holding the hands while running and when to put on the finishing sprint. Yes, the Tankers have made a science of athletics and that is why they are winning.

Reason Running Bad.

There is one that we are not showing up well in, and that is the long-distance running and the open-water swimming. There are two reasons for this. The Olympic athletes have not moved so heavily as the men from Europe. In the United States the Tankers and other races from five to six miles are rather uncommon, or have been for the past five years, and we do not have the races we need to develop the material. Long-distance running is a matter of strength and endurance. The Tankers have a great deal of strength and endurance. They are able to run for hours and when men are carried into a strange land, where the climate and the water are all different, they are able to keep going. The Tankers have a great deal of strength and endurance. They are able to run for hours and when men are carried into a strange land, where the climate and the water are all different, they are able to keep going.

HOW NATIONS STAND IN OLYMPIC GAMES.

STOCKHOLM, July 15.—The standing tonight of the various teams in all the events of the Olympics were: United States, 128; Sweden, 104; Great Britain, 66; Finland, 46; Germany, 34; France, 28; South Africa, 16; Denmark, 14; Italy, 13; Canada, 13; Australia, 13; Belgium, 11; Norway, 10; Hungary, 8; Russia, 5; Greece, 4; Austria, 4; Holland, 3.

In the track field events, the final standing is: United States, 35; Finland, 27; Sweden, 24; Great Britain, 14; Canada, 7; South Africa, 6; France, 4; Germany, 4; Greece, 4; Norway, 2; Hungary, 1; Italy, 1.

finished seventh, was in good trim when he crossed the line. He made a great sprint at the finish, covering the last five miles in twenty-seven minutes, and without doubt would have won had he let himself out earlier in the race. Whether he or the Americans who followed him into the stadium were tired. All walked to their dressing-rooms. The South Africans, who finished first and second, were carried off after they collapsed as they crossed the finish line. Strobin and Smith were practically unconscious on their feet when they finished.

McArthur, the winner, probably will turn professional for a world tour. Vaudeville managers are after him for appearances in New York this fall. The post-mortem Marathon goes to the winner, who was carried off by the death of Lasso, the Portuguese runner, as the result of the sunstroke he received in the Marathon.

The presentation of the prizes by King Gustav of Sweden today was a brilliant and fitting wind-up of the games.

BULLETINS OF RESULTS AT GAMES YESTERDAY.

(BY A. P. NIGHT WIRE TO THE TIMES.)

STOCKHOLM, July 15.—The 800-meter swimming team race for teams of four men, each swimming 200 meters, free style, final—Australia first, 10m. 11.1-12.1; United States second, 10m. 20.1-21.1; England third, 10m. 25.1-26.1.

Relay Race.

STOCKHOLM (Sweden) July 15.—[By A. P. Night Wire.] The 1800-meter relay race, for teams of four men, each man running 450 meters, final—United States first, France second, England third.

Decathlon Results.

STOCKHOLM (Sweden) July 15.—[By A. P. Night Wire.] James Thorpe (Carlisle Indian School) first, H. Wieslander (Sweden) second, G. Lomborg (Sweden) third.

Thorpe Winner of Decathlon.

BY J. H. RANDALL.

(By Federal Wireless) Line to the Times.

STOCKHOLM, July 15.—[Special Dispatch.] It would have rounded out things if the United States could have taken the Marathon, but at the wind-up, the field and track events of the Olympic games today there is every reason for rejoicing among the lads who bear Uncle Sam's shield.

We have in Jim Thorpe, the greatest all-around athlete in the world. He won both the pentathlon and the decathlon, the two all-around contests, in hollow style. Besides this, our boys have taken sixteen firsts out of twenty-nine events, with a great proportion of seconds and thirds. Our total points in the purely Olympic events are 85, with Finland second with 25, Sweden third with 24, and England fourth with 16. The other countries are simply nowhere.

It has been a splendid victory for American athletic methods and it's a happy lot of athletes representing Old Glory today. It can be said that there is not an athlete in the world who is not an American. It is not to mar the trip of the American team, but in some of the events which our boys worked upon, they were not the best. For instance, the 400-meter relay, and the 5000-meter race.

Finland undoubtedly has the surprise of the meet. She has a great lot of athletes, and the same may be said of Sweden. In those events which require stamina and strength, those northerners are hard to beat, and under such trainers as Emil Hiesberg they soon will acquire the skill. It is the general opinion that in the Berlin Olympics the Scandinavians will take a lot of beating.

THORPE VICTORY.

The wind-up of the decathlon found Jim Thorpe winner. The final of the 1800-meter relay, in which our lads also won with ease, were the events in the wind-up on which the United States was principally interested. We made a poor showing in the cross-country race, none of our men showing anything like the form of the Finlanders or Swedes.

While our best showing was in the field and track events, we have no reason to be ashamed of the showing made in the other lines of athletic activities as the total scores show. United States, 128; Sweden, 94; Great Britain, 66; Finland, 46; Germany, 34; France, 28; South Africa, 16; Australia, 13; Canada, 13; Denmark, 11; Norway, 10; Hungary, 8; Russia, 5; Greece, 4; Austria, 4; Holland, 3.

The members of the American team held post-mortems over the Marathon race in which South Africa runner Strobin of South Paterson, N. J., took first and second place, the third place going to the United States through the wonderful work of Gaston Strobin of South Paterson, N. J.

AMERICANS HELD BACK.

The athletes are unanimous in declaring that the Americans stayed back too long in the twenty-five-mile race. The United States runners were seven minutes behind the Finlanders in the twenty-mile post and the pace was not fast.

All the Americans, except Smith, who finished fifteenth, and Strobin, finished fresh, waving their hands to the American section as they passed.

John J. Gallagher of Yale, who

and of Ireland, gave an exhibition of strength and wrestling which caused much amusement.

The raising of the flag of the winners in the swimming and wrestling contests, in which Sweden, Finland, Australia, the United States and England figured, aroused much enthusiasm.

In the wrestling bouts for featherweights and lightweights, Finland, Sweden and Germany had it all to themselves.

In the swimming contest 400 and 800 meters, England and Australia carried off the first prize, while in high diving and the hop, step and jump, Sweden again came to the fore, providing the winner in each event.

All Sweden.

The hop, step and jump went entirely to Sweden. G. Lindblom, G. Aberg and E. Almqvist being the winners. Lindblom cleared 14 meters 76 centimeters (48 feet 1.1-1.2 inches). Aberg and Almqvist followed him at a distance of a few inches. Platt Adams, New York A.C., covered 14 meters 2 centimeters (46 feet 7.1-7.2 inches). D. Campbell, England, 14 meters 6 centimeters (46 feet 1.1-1.2 inches). Edward L. Farrell, Boston A.A., 13 meters 87 centimeters (44 feet 8.1-8.2 inches). C. E. Brickley, Harvard University, 13 meters 85 centimeters (44 feet 8.1-8.2 inches).

Wrestling.

STOCKHOLM, July 15.—[By A. P. Night Wire.] Wrestling final: featherweights: Koskela, Finland, first; Lasso, Sweden, second; second: Gerackkers, Germany, third.

High Diving.

STOCKHOLM, July 15.—[By A. P. Night Wire.] High diving, plain and variety combined, from heights of five and ten meters, final: Adler, Sweden, 289.7-10 points; first: Zurner, Germany, 282 points; second: Horgren, Sweden, 287.8-10 points; third.

400 Meter Swimming.

STOCKHOLM, July 15.—[By A. P. Night Wire.] 400 meters swimming race (team) for teams of four women, each swimming 100 meters: England first, Germany second, Austria third. Time 5 minutes 53 seconds.

JIMMY CLABBY IS AFTER MIKE GIBBONS.

(By Federal Wireless) Line to the Times.

CHICAGO BUREAU OF THE TIMES, July 15.—[Special Dispatch.] Jimmy Clabby, pride of Hammond, Ind., is back in Chicago from his recent trip to Australia where he defeated the best in the Antipodes. Clabby is now a full fledged middleweight and is after the middleweight title.

"I am the only middleweight clever enough to take the measure of Mike Gibbons," says Clabby. "I also believe that I am too fast for Eddie McGeertry and these two men represent the class in the middleweight division."

"My hands are stronger than ever and I am a better boxer than when I went away. All I lacked before was the addition of about ten pounds in weight. I have this weight now and am going to be middleweight champion before the year is over."

ANOTHER WHITE HOPE BOBS UP.

(By Federal Wireless) Line to the Times.

NEW YORK BUREAU OF THE TIMES, July 15.—[Special Dispatch.] Oklahoma sends to New York another "White Hope" in the person of Cowboy Jess Willard. Accompanying him are his manager, Charley K. Cutler, and Mary Cutler, who trained Johnson for his fights with Jim Jeffries and Jim Flynn.

The cowboy is the biggest thing in white hopes that has thus far made its appearance. The young man weighs 240 pounds, stands six feet, six inches in his stockings and has a reach of 83 1/2 inches, and is only 25 years of age. His manager predicts great things for him when he grows up.

Willard hails from Oklahoma City and has only engaged in eight battles.

"I am so much impressed with this boy's ability," said Cutler, "that I am willing to fight him against either McCarthy, Al Falser or any other big man, winner to take all."

PRIZE FIGHTS FOR INVALIDS.

As a health restorer for invalids convalescing from severe surgical operations, Ad Wolgast earnestly recommends twenty-round prize fights.

From the time of his operation for appendicitis until his fight with Joe Rivers, he had made little progress toward recovering his strength and weight.

In the eleven days since the 'big fight' he has gained nine pounds.

ENGLISH OPERA'S ONLY MASTER.

Aborn, the One Man Who Made Great Music Pay.

Story of His Struggles and Successes.

Constructive Work Required for This Triumph.

BY ROBERT GRAU.

With all the discussion in the public press about the revival of opera in England, there is little of the part played in this field for many years by an American manager whose operations have been on a scale so important, and his achievements so noteworthy, that he is entitled to the distinction of being recorded as America's first and only self-made impresario.

Milton Aborn's career once more emphasizes the fact that given a fair field wherein to labor, our own representative producers take rank with even the greatest of the latin countries, and in no instance is this so true as in the case of Aborn, for here we have a man who has undertaken a truly herculean task, with a final result so unparalleled, that his name is likely to be written high in the historical records of operatic achievement in the generation now passing.

Was it true that Aborn had been "wrecked," or that his seemingly hazardous undertakings were endorsed by our government as they would be in Latin Europe, the final outcome, the survival and expansion to the state they are today would still reflect great credit on the director, but let us see what it really is that the young Bostonian has accomplished.

Boston gave us Henry W. Savage, whose achievements have already been recorded, but the career of Milton Aborn is a wholly different one to realize.

Mr. Savage was a wealthy man who had theatrical management virtually thrust at him. In the case of Aborn it will be found that he has had to contest every foot of ground gained, and that the success he has made is all the more creditable to him.

In that grand opera has ever been regarded as the most precarious line of endeavor, with which men of nerve and capital could tempt fate.

In the '80's when this country

abounded with cheap opera companies, such as the Bennett and Moulton-Wilbur, and other organizations Aborn was well known as a versatile man who could play anything from the prima donna role to that of the comedian; one day he would be seen starting an operetta, the next he might be conducting it.

When R. F. Keith began his great project of presenting refined vaudeville, the idea was to present comic opera as the leading feature. Aborn was engaged and he afterward became a tremendous local favorite in all of the cities where Mr. Keith had theaters. In due course the opera feature was abandoned, and the Aborn Comic Opera Company was organized for the "road."

Each year the standard of the organization was raised, but comic opera spelled bankruptcy in those days, so that Aborn in the late '90's decided to shift the scene of his labors, at least temporarily. Vaudeville attracted him—as it did many others, and he showed his unique talent as well as his ability to adapt himself to all kinds of conditions by becoming not only one of the leading agents and producers in the two-day field, but he also made a lot of money, his income annually going into five figures.

In 1900 when "The White Rats" had their bitter quarrel with the vaudeville managers, Milton Aborn was selected as the manager of the Society's Agency, and the manner in which he did manipulate the cards between the actors and the managers had much to do with the ending of the strife.

And now we come to the serious and constructive phase of the Aborn career—through his affiliation with the vaudeville managers, such as Peter Williams, Aborn was given the chance he had long coveted.

He had long coveted, the opportunity to produce high-grade opera—the only way he

could justify himself to present such was to be protected with a guarantee. Mr. Williams and one or two others, realizing that Aborn was a master mind in organization and direction, contracted with him for a summer season of light and standard opera in their theaters.

From this custom has developed an operatic institution that has no duplicate in the world over. Mr. Aborn has gradually lifted his environment until today he is by all manner of means the most extensive producer of grand opera in the world—and the only impresario confining his efforts to opera in their theaters.

In the spring of each season six distinct grand opera organizations, each one numbering nearly one hundred persons, appear in as many cities for seasons ranging from four to sixteen weeks, a system of exchanging principals, chorus, orchestra and paraphernalia has made it possible to present the entire Aborn output before the public of each city. It is easy therefore to imagine the artistic results emanating from a regime so pervasive in its scope and let it be said here that Mr. Aborn selects his artists, conductors and chorus from the best available operatic material, while the repertoire is on a par with that which graces the Metropolitan Opera House in New York and compares favorably with the offerings of European opera-houses.

In the regular season there are always two distinct Aborn opera companies presenting the works of the greatest composers in the language of our nation, and as evidence of the Aborn liberal policy it may be stated here that despite the almost prohibitive royalties demanded for the right to produce the Puccini operas, such as "Madame Butterfly," "La Bohème," and "La Tosca," these popular works are a distinguishing feature of the repertoire, in fact, through no other organizations can the great public

outside of New York and Boston have the privilege of hearing them. Once Mr. Aborn was asked by the writer how he came to abandon his stage career and his reply here recorded is thoroughly characteristic of the man: "I concluded that I was not getting on in the world as I should, and felt that I would rather shine as a good business man than as a mediocre comedian, so I discharged myself as an actor, and in my capacity as manager, I have not had cause to regret this procedure. Six at the first hole and 6 at the ninth, but look at that lovely row of 4's and 5's, not omitting that 3 at No. 7. Another 3 at No. 12 and 4's as common as daisies."

Joseph Ball second—4-6-11-75, and "Victrola" Modahan 8-8-11-75, third place. E. H. Straford 8-7-11-75, Dr. Westhughes, E. H. Lockwood, H. P. Thayer, E. J. Borlough, Frank D. Tatum, O. B. Carter, W. E. Washington, Sullivan, L. du P. Miller, Howard Fish, C. B. Gatch, E. C. Kimmeyer and Glittering Jack. After all there is a goodly company to stand by the death-bed of the dying season and coax from retreating from the international meeting with her tail between her legs. But he didn't and the doughty deed must needs be done on the home links in comparative obscurity.

"Come, give us a taste of your quality," quoth the nobles in friendly like, and Martin replied with a 3, 2, 4, 3, 4, 5, 4, 4—25 for the outward half and an unimpaired air of inconsequence. "This nothing," he smiled and came home in 4, 3, 4, 2, 4, 2, 4—23, so that the nobles hung their tongues with amusement and Martin said he seemed to be getting his game back.

"He hath indeed bettered expectations," and declared the common opponent, Field Marshal Par, by 6 strokes.

The Sweepstakes. An ever-widening company assembled for the sweepstakes at Beverly match play against Bogey, resulting in the triumph of a scone of the medical profession, Dr. Fullerton, with an even score on 7 handicap.

L. T. Bradford ("Still harping on thy daughter") came second, and thus he bearded out the legend that a new father maketh the best golfer, another month of his daughter's age may make of him the champion of Del Monte if the stars are read aright.

"There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy" and I recall to your mind that it was as new fathers that Conde Jones and Elmer Williams each carried off the honors of the San Gabriel and Annadale invitation tournaments, to say nothing of various runner-upships.

Windsor Walton and S. S. Parsons divided the joy of third place whereby they were called upon to decide possession of one Baby Dimple. With Solomon's great precedent to work upon the difficulty should have been simply solved but alas, men will never profit by Biblical experiences and a career was in which an availing coin was involved, played the covetous yearnings of their hearts.

At Annadale. The name of Smith was once more

GOOD BOUTS FOR JADED NEW YORKERS.

BY A. P. SMITH WIRE TO THE TIMES NEW YORK, July 15.—Three boxing matches of sufficient importance to attract attention in midsummer are scheduled to take place in New York this week. Bombardier Wells, heavy-weight champion of England, who was defeated by Al Palmer, will meet Tom Kennedy at Madison Square Garden Friday night.

Buck Crouse, the Pittsburgh middleweight, will meet Tommy Ginty of Philadelphia at the St. Nicholas Athletic Club Wednesday night.

Billy Papke, who claims to be middleweight champion pugilist of the world, is here today on his way from England to his home in Chicago.

Papke is returning after several months of fighting in France, where he won today on his way from England to his home in Chicago.

Papke appears to be in excellent condition and declares he will easily defeat the Frenchman.

WHIFFS FROM SPORT PIPE.

(Continued from First Page.)

ern California's orange groves and it is rumored that his fancies run in that direction.

Don Smith, the local boy who went to Tacoma in the Northwest League at the first of the season and later took on with the Calgary club has returned to the city with a tale of hard luck that is hard to beat. First, the Tacoma club went on the rocks, and it rained so much in the Calgary country that the whole league was out of business. Don will stay here for a few weeks and then go East to take in the big cities and see some of the big league ball they turn out.

Mrs. Mary Roach broke all records for marathon dips in the cool Pacific last Sunday, when she stayed in from 10 a.m. till the clock struck 5:30 p.m.

The tuna have come to pay their annual call at Catalina. The first fish of the season was hooked Sunday by W. C. Price after a hard battle lasting nearly two hours. Mr. Price says that, at the time he hooked his fish, hundreds of tuna were leaping from the water.

To locate in Los Angeles is the desire and intention of Arthur Haigler of the New York Giants. J. J. Cannan, who went back as far as Chicago with the local boy when he returned to McGraw's forces the last time, says that the ball player realizes that it is not every chap who can make good on the Giants line-up; but he likes Los Angeles and will return as soon as his ball-playing days, which will not be many, are over.

Jimmie O'Shea has joined the Y.M.C.A. and gone into active training in preparation for the Phoenix road race. One of the exercises prescribed by the physical director is calculated to develop the muscles employed in cranking a car. Jimmie has called John Blackwood's Hudson and will have several loads of sand hauled onto the lot across from the Majestic, where he will hold his Phoenix race trials.

John Lynch has received word that Charlie Haigler expects to be in Los Angeles the latter part of this month, and will spend a month here. Lynch and the former All-Southern California tackle were old-timers at the Tempe Normal School, and when Haigler came into the local college, Lynch decided to follow and, as a result, will graduate next year. Haigler is now farming 320 acres in the Salt River Valley, and it is about time for him to cash in the season's earnings and enjoy a vacation.

Wallie Robb has collected a classy tribe of old-timers at the baseball game, and will have one of the best amateur teams in the city. Among the bright ones signed by Robb are Lee Mahoney, formerly captain of the Pasadena team and later a clever pitcher at Cornell; Bill Mahoney, 814 Hatch, Sid Foster, Duffy Seay and Tom Workman.

Billie Coe is wearing one of the broadest smiles on Broadway. His ball team has won forty out of forty-two games this season, and the miniature Connie Mack considers himself one of the big lights of sportdom.

Frank Goss, the sensational Sunday semi-pro pitcher, has a record of twenty-six straight games, beating the Dyas-Cline colors. Among the bright ones signed by Robb are Lee Mahoney, formerly captain of the Pasadena team and later a clever pitcher at Cornell; Bill Mahoney, 814 Hatch, Sid Foster, Duffy Seay and Tom Workman.

Hal Paulin, one of the best known and best liked students at the University of Southern California gets into double harness today when he leads to the altar Miss McVey. Paulin was an all-southern half-back and won many games for his college by his mighty boot. He was captain of the football team two years ago. Sam Dick and Ralph Crossman, two of his former schoolmates have come into the city to be present at the wedding.

Ben Watlington of the L.A.A.C. who finished second in the club championship 440 yard race, Friday night, has been rejuvenated by his showing and has decided to make a big effort to come back. To that end he has gone to Catalina for about two months to get into shape for the Southern California championships at Redondo. Watlington was formerly Coast champion over the long distance, and will make the best of them hustle if he can get back into shape.

Fashion Hints For

A type of lingerie dress that is always going to be popular. There are fine hand run tucks at the slightly shaping the dress.—Maison B.

FACTS, FEATURES AND FANCIES FOR WOMEN AND MEN

BY OLIVE GRAY

DAILY BEAUTY HINT: "While I am writing a correspondent, 'I believe in trying young as possible. As I believe the majority, I hope you will continue to give me advice."

It seems to me that there is a valuable thought in this little letter. "Only a workman's wife," should, it seems to me, take particular pains to put and to keep as much beauty as possible into her dress, for her husband is a busy man makes it all the more necessary that when she returns to his home he should find her the beauty which is probably lacking in his business round.

"Only a workman's wife" is one of the most important factors in life, and I think her views of woman's duty are right.

And not only that, but every woman should arrogate to herself as much influence and respect and (in this case) admiration as possible, for a wider influence for the betterment of the world. The "good" the beauty and the true" go hand in hand, and should do so.

Westland Hookwood, an especially fine collection of two-brace has been displaying a window with this view which served as a revelation as to beauty.

The structure of the window was made the atmosphere of Indian summer, placid or a disquiet presented a woodland scene in the same soft light. Many admirers stood before this window, filling their eyes and souls with the beauty of this art.

A Rush for Dresses. A specialty of Sunday shopping and bargains certainly had a rush in the "ready-to" department. In lingerie goods especially, it was daily a revelation the quality of the goods for less than \$10.

The dollar mark, which led one to think "Who would ever make Sam for that?"

White Mourning. One of the high-class millinery stores is showing a full line of white mourning in hats, veils, etc. The most notable of the New York and Paris styles are showing "white mourning" and "white mourning" in some cases white crepe is used to edge the veils and also to trim the hats.

Comparable Silks. Among the new importations at the store is a new silk suiting in dark tones of the brightest color at the moment and with the blue of the sea in the millinery, this her shade the color same.

Green Dish. That green color is plentiful in the following dish will be appreciated. Cut the corn from a can of parley chopped fine, and a few green peppers and minced, place in a bowl and cover with a cracker.

Make in a moderate oven for 15 minutes before serving moisten with a dash of lemon juice.

Wash. One of the following dish will be appreciated. Cut the corn from a can of parley chopped fine, and a few green peppers and minced, place in a bowl and cover with a cracker.

REPEAT WHAT WITNESS SAID.

Efforts to Break Franklin's Testimony Made.

Newspaper Men Tell the Gist of Interviews.

Mysterious Person Supposed to Give Bribe Money.

Efforts to break down the testimony of Port H. Franklin, star witness for the prosecution, were made by the defense lawyers in the Darrow case yesterday. The session lacked features and the questioning appeared tiresome to the spectators. The attendance was below the average.

But the trial began the defense attorneys regarded the impact of the prosecution's witnesses as one of the important parts of the case.

During the cross-examination of Franklin and Harrington, both for the defense and the prosecution, they were asked numerous questions as to what they told newspapers and others regarding the case and the innocence of Darrow.

From the evidence so far presented in the case, Franklin was the most reliable witness. He was a well-known, reputable, disinterested witness. He has been produced to swear that he saw Darrow was in the company of a mysterious person, and never saw what he was trying to do.

On the other hand, the State will say that these replies were made at a time when Franklin was himself under serious charges and when he was not free to protect his own interests, but had put up \$10,000 cash for him, according to testimony introduced in this case.

would go to the penitentiary," said Johnson, in substance.

Johnson also said Ford told him to impress the fact on Franklin that the man responsible for the jury bribery should be secured and that the prosecutor personally took no stock in any story of an unknown man who offered the bribe. The witness explained that Ford made it clear that he did not believe anyone would take money from an unknown person and that there was no use of Franklin's telling any such story.

Johnson further said Franklin had told him that neither Davis nor Darrow had had anything to do with the bribery of jurors. "I told him not to lie but to tell the whole truth," said the lawyer witness.

He denied saying, as Franklin testified, that if the mysterious man were a local man, to say nothing about him. According to the witness Franklin described the unknown who went with him to the McNamara defense headquarters on November 25, as being small, dark and wearing glasses.

Ford conducted the cross-examination. He asked for the conversation between the witness and Franklin. It was given substantially as on the direct examination. Ford also asked for the conversation between himself and Johnson. But the court sustained the objections of the defense.

Judge Dunbar asked the witness more about the unknown man who was supposed to have given the alleged bribe money to Franklin, according to one theory of the defense. Johnson thought Franklin said he had never been able to find him, though several appointments had been made. "The witness further said that Franklin told him, 'I know the prosecution expects me to name Darrow as the guilty man,' or words to that effect."

The trial of Franklin on a charge of having bribed George N. Lockwood, a juror drawn November 25, last, to serve on the McNamara case, went off the calendar yesterday. The case was called in Judge Cabanis's court, and on motion of Deputy District Attorney Alexander it was continued to be reset. The specific charge is that Franklin gave \$100 to Lockwood with a promise of \$3500 more.

THE POLITICAL WATCHTOWER.

Every now and then some one will ask "What has become of the Municipal News?" People occasionally recall that they voted on a proposition to publish such a paper at public expense, but one of those amusing referendum ordinances. It was such a funny idea, at the time, they remember. Now they learn that they are paying for their fun. The City Treasurer every month meets the expense of the Budget Committee of the City Council has to provide a fund to keep the publication going. The paper is rarely seen anywhere in public, but often has been seen in the shape of bundles left at street corners by the delivery boys. Its promoters announced that a real newspaper would be published and they boasted of their advertising and their inside information about city affairs. Since then little has been heard of the paper, but the lean appearance of its advertising columns does not indicate that it has been won the confidence of advertisers and that of its news columns shows no anxiety to unburden itself of any other kind of information. It was thought at first that it would be used to advance the politics of its promoters, but to do this it would require a circulation. It hasn't got one and there are no indications that it will ever have one. In fact, it is simply a costly piece of folly.

The announcement that Charles H. Randall was out for Congress in the Ninth Congressional District was formally made yesterday afternoon and shows that the Lissner-Johnson bunch in the city is not the only one that is making a candidate for Congress. His strength in the Lissner following was the positive kind, and he got one and there are no indications that it will ever have one. In fact, it is simply a costly piece of folly.

-Take Advantage of This Sale!

No matter who you are, nor how much you've been accustomed to paying for a suit—if you are interested in wearing the highest grade of clothing, and if you are willing to save money when you buy, you can well afford to visit our July Sale of

500 Men's Suits

~~\$18.75~~ ~~\$23.50~~

Values to \$25 Values to \$35

Why Are They On Sale? Have They Rep-utable Makers? What About the Styles?

Our big business this season has left us thus early with broken lines of our highest grade clothing. These have been reduced in price, and put aside on special racks for easy choosing. There you have it in a nutshell.

Surely such clothing as Stein-Bloch Smart Clothes for Men—"Stratford System" for Young Men—and Adler-Rochester, are worth inspection. These are splendid values at their regular prices—and the sale prices make them more worth while than ever.

Every one of these suits is this year's style. Some of them are light weights for summer—many are heavier for fall. The service we offer the public enables us to do a tremendous volume of business, which clears our stock closely every season. We have no "left overs" now—we will have none next year.

Our \$15 Stock

already famous for its value, has been strengthened for this sale with many splendid \$18 and \$20 suits. All will sell at one price—\$15.

Sale of Bathrobes

Big, roomy bathrobes—the sort which double the pleasure of your beach outing—in \$5, \$6 and \$7.50 values.

On sale at **\$3.15**

Boys' and Youths' Suits

We're making sharp reductions in the prices of all our spring Boys' and Youths' suits, except Norfolk. Double breasted Knicker suits for boys—Youths' 2 and 3 button sacks—all in mixtures and plain blue serges.

SLAYERED JAWS.

(Continued From First Page.)

clinical evidence of it. The dog was unharmed. If it had been muzzled, a life would have been saved.

"I wanted the parents of the child to consent to a post-mortem examination, but they would not allow it. Dr. Clark will issue a death certificate, giving rabies as the cause of death, and I will issue a burial permit. There will be no inquest."

Fabian Barrera, a teamster employed by the Los Angeles Brick Company, is the father of the dead baby. An older brother, Joseph Barrera, said yesterday that he is seeking the owner of the dog and has obtained a good description of him.

Fireman escaped. Nine cars followed the engine into the ditch and in the wreckage Clay and Geyer, who were riding on top, were caught and crushed to death.

Because of the narrow canyon it was necessary to drag out one car at a time to clear the track. It was impossible to turn them over out of the way.

The wreck occurred at noon Sunday, the report of the accident being brought here by the Los Angeles Limited, the first train through. The main line was cleared yesterday forenoon and by tonight it is expected the wreckage will be entirely cleared away.

OVERLOOKING WESTLAKE.

Five-story Apartment-house to Be Built at Once, Leased for Ten Years to New Yorkers.

A site at the corner of Parkview and West Sixth streets was leased for ten years yesterday by Jacob Morris of this city to Mrs. Sue H. Leonard and George E. Hart of New York. Morris announced he will at once build a five-story apartment-house on the site, according to plans drawn by Noonan & Kaiser. The house will contain 120 rooms.

The lot is 100 by 170 feet and overlooks Westlake Park. The valuation of the lot is \$50,000. The building will cost \$100,000 and the furnishings about \$50,000. The lease consideration was \$120,000. The building is to be ready for occupancy in December. James G. Torrey of the lease department of Robert Marsh & Co. represented the lessee.

EL SEGUNDO.

EL SEGUNDO, July 15.—The contract has been awarded to the El Segundo Home Builders Company by the school board for the new grammar school building. The contract calls for a frame building to cost \$275,000 and four rooms only two of which will be finished at first. The school will be completed by September for the fall session of school. There are about sixty children in the district who attended school the past year.

All of the right of way for the electric line of the Pacific Electric Company from Hawthorne to this town has been secured and within thirty days it is said, the road will be extended here. Hawthorne is but four and a half miles from here and the Pacific Electric will connect from Hawthorne with the El Segundo railroad at El Segundo avenue.

MONROVIA.

MONROVIA, July 15.—A drunken Mexican served to break the usual Sabbath calm of Monrovia yesterday by attempting to kill his wife with an ax.

Atalermo Romero, who lives on Almond street, near Shamrock avenue, came home from a spree lasting two days and when his wife tried to coax him to go to bed, he started after her yelling like an Indian and waving his ax wildly. Neighbors, who rescued the woman, sent for the Marshal and Romero locked himself in the house threatening to kill anyone coming near him. Though the much-frightened neighbors tried to dissuade the Marshal from attempting an arrest of the liquor-crazed man, he was taken with little resistance and lodged in jail until this morning when Judge Holloway bound him over to appear Friday morning at 10 o'clock, charged with being assault with a deadly weapon.

CARS FIRED UP.

BIG BOULDER WRECKS TRAIN.

TWO MEN CRUSHED TO DEATH. OTHERS INJURED.

Nine Cars Follow Mogul Engine Into Ditch in Nevada Canyon. Engineer Caught in Cab, but Escapes With Slight Injuries and Returns to His Home in This City.

A huge boulder, released from the steep side of a mountain canyon, rolled to the tracks of the main line of the Salt Lake Railroad, near Galt, in the Meadow Valley of Nevada Sunday. In the freight wreck that resulted two trainmen were killed and two others injured.

The dead: WALTER CLAY, conductor. SAMUEL A. GEYER, brakeman. The injured: E. C. Raymond, engineer. M. Gensler, brakeman. Clay formerly lived in this city, but for the past year has made his home in Las Vegas. He is about 32 years old. His body will be sent to his home in Missouri for burial.

Geyer was about 36 years old, single, and made his runs alternately from Las Vegas and this city. His body will be sent to his home in Van Wert, O.

Neither Raymond nor Gensler were seriously injured. Raymond returned late last night to his home at No. 1944 East Third street.

When the engine of the heavy freight struck the boulder it turned over on its side, and the cab of the engine was crushed over on its side, but was not badly hurt. His

fireman escaped. Nine cars followed the engine into the ditch and in the wreckage Clay and Geyer, who were riding on top, were caught and crushed to death.

Because of the narrow canyon it was necessary to drag out one car at a time to clear the track. It was impossible to turn them over out of the way.

The wreck occurred at noon Sunday, the report of the accident being brought here by the Los Angeles Limited, the first train through. The main line was cleared yesterday forenoon and by tonight it is expected the wreckage will be entirely cleared away.

ISLAND STATEMENT IN WHICH THEY REGISTREED ORDINANCE IS A MODEL OF KINDLY TOLERANCE.

ASUBA, July 15.—The directors of the Asuba Chamber of Commerce and the Board of Trustees have issued a statement in which they registered their opposition to the recently enacted speed ordinance. The statement follows:

"We, the directors of the Asuba Chamber of Commerce, and the City Trustees, would ask you to give to the public through your papers the following report correcting the false statements which have been given out and credited to the Auto Club of Southern California regarding the speed regulations of the city of Asuba."

"At the request of a large number of our citizens, the City Trustees at their last meeting on July 3 took up the matter of speed regulation of automobiles, motorcycles, etc. The present ordinance, which has been in force for over two years, limits the speed to ten miles an hour anywhere in the city limits. Believing this limit to be too low, and rather than do an injustice to the traveling public, the Trustees raised the limit to fifteen miles an hour for four or five blocks of the thickly built up portion of the city. We placed an officer on duty with instructions to be lenient in the matter, feeling that it would be better to allow a few miles in excess of this rather than to see exacting in the matter. The officer has made ten arrests thus far (not 119 as reported in the papers) everyone of whom was traveling in excess of twenty-five miles an hour. We do not pay the officer \$0 per cent. (as stated in the papers); the judge receives nothing in excess of his customary fee of \$25 no matter how much the fine may be. We hired but one officer (not four, as stated in the papers)."

"Every Sunday we venture to state there are at least 200 autos and motorcycles pacing through our

GREENE CANANEA COPPER CO.

Dividend No. 2.

A dividend of 25 cents per share on the outstanding capital stock of the company has been declared payable August 31, 1912, to the stockholders of record at the close of business on August 14, 1912. The stock transfer books will be closed from August 14, 1912, to August 31, 1912, both inclusive.

C. A. DUNCAN, Treasurer.

If You Want to Go East C. Haydock, 7314 Main St., L. C. R. R. Bldg., San Francisco, Cal., Demand it in your district.

What Food shall I give Baby?

Every mother must sooner or later ask herself this question, and it is one which must involve a good deal of anxious consideration. It may be that of the advice of friends various foods are tried to see if baby takes kindly to them.

Now, is it not reasonable to assume that an infants' food that has been in general use for upwards of fifty years, and that has been used in preference to others, is likely to prove a suitable diet for the average infant? Such a food is Savory & Moore's, and all mothers who desire its favour may be congratulated on the wisdom of their choice.

Infants reared on Savory & Moore's Food are characterized by strong, sturdy limbs, firm flesh, plenty of bone and muscle, easy teaching, freedom from ailments, and that happy disposition which is the sure sign of perfect health. Ask your Druggist to get you a tin.

MOTHER'S GUIDE FREE

Much useful information on the Feeding and Rearing of Infants will be found in Savory & Moore's booklet, "The Baby," a copy of which will be mailed Free, to all applicants by Savory & Moore, Ltd., Chemists to The King, New Bond Street, London, England.
